

# FORD SVT Raptor / F-150

## Front and Rear Brake Upgrade

### Applications

On and Off-road

### Key features and benefits

- Gains in performance over stock braking system:
  - 10% reduction in disc temperature rise
  - 33% reduction in pad work rate
  - Up to 15% reduction in pedal effort
- Ductile Iron caliper housing providing maximum strength and stiffness as well as high resistance to impact and fatigue
- Epoxy acrylic paint over acid zinc finish for maximum corrosion protection
- High friction pads increase stopping power
- Larger rotors increase brake torque and thermal capacity, reducing potential for brake fade
- Increased pad area reduces temperatures and increases pad life

### Part numbers

	Front	Rear
<b>Brake Kit Part No</b>	BKF1559BE11	BKR5059D07
<b>Caliper</b>	6 piston	4 piston
<b>Rotor</b>	347 × 36 mm	360 × 32 mm
<b>Pad Material</b>	Heavy duty	Heavy duty

### Specifications

- High temperature seal material as used in highest levels of motorsport
- Wiper seal on every piston for dirt exclusion
- Low profile design fits inside OEM 17" Raptor, many 17" and larger aftermarket wheels
- Compatible with stock OEM actuation / Retains and utilizes OEM parking brake

### Fits

- 2010-2014 and 2017 on Ford SVT Raptor
- 2009 on Ford F-150

▲ Ford SVT Raptor / F150 front caliper and rotor (note: hose not included, works with stock brake lines)

▲ 6 piston front caliper

**WARNING:** This product can expose you to chemicals including Chromium, Lead, Lead Compounds, Nickel (Metallic) Nickel Compounds, Disorganyl and Di(2-ethylhexyl) Phthalates (DEHP(DINP)) which are known to the State of California to cause cancer or birth defects or other reproductive harm.

▲ 4 piston rear caliper
