

CarPro-Tec®

GPS vehicle alarm system

CarPro-Tec® GPS is the first and only GPS alarm system on the market that simply powered by cigarette lighter with voltage and placed in Fahrzeug. The alarm system then secures doors and trunk against opening without further wiring secures windows against knocking and the vehicle against driving away or towing. The integrated battery supplies the Carprotec GPS up to 14 days without any external power supply.

CarPro-Tec® GPS is suitable for cars, campers, caravans and trucks of all ages and manufacturers.

CarPro-Tec® serves as Alarm system with GPS and as a full GPS tracker
