

GPRM086

Arkon Adjustable Clamp Mount for GoPro HERO Action Cameras Retail Black

DESCRIPTION:

The recent integration of the GoPro HERO4 on Periscope has opened up a number of new live streaming possibilities. Arkon's GPRM086 heavy-duty clamp mount for GoPro HERO is a must-have accessory for broadcasting with your GoPro action camera from a desk, cart, worktable, bench, lectern, or other table-like surfaces. This clamp mount is compatible with all models of the GoPro HERO action camera, including the HERO5, HERO Session, HERO4 Black and Silver, HERO3+, HERO3, HERO2, and HERO. This mount is also compatible with the Garmin VIRB XE and the 360fly, a 360-degree panoramic camera. GPRM086 includes the Heavy-Duty Adjustable C-Clamp Mounting Pedestal with a GoPro mounting pattern. The tough, low-vibration clamp mount pedestal measures approximately 5 inches high (not including the holder or clamp), and is made of a combination of plastic and glass fiber. The C-clamp maintains a firm grip and opens as wide as 2.25 inches and closes as tight as .25 inches. The arm of the pedestal swivels on both the top and the bottom, providing 360-degree rotation and the ultimate flexibility in positioning the GoPro at any angle for live streaming or other mounting needs. Simply unscrew the lateral mounting bolt, insert the GoPro, and re-screw the lateral mounting bolt. Position the GoPro as needed by loosening or tightening the side adjustment knob. Now that you can use a GoPro HERO4 with Periscope, the locations and scenarios you can live stream from are endless.

FEATURES:
