

RM0801420

Arkon Heavy Duty Camera Windshield Suction Mount for Nikon Sony Samsung Canon Olympus Panasonic

**DESCRIPTION:**

The RM0801420 windshield suction camera mount is part of Arkon's Robust Mount Series and is compatible with all cameras with the standard 1/4"-20 camera mounting pattern, including those from Nikon, Sony, Samsung, Canon, Fujifilm, Olympus, Panasonic, and Pentax. This package includes only the Heavy-Duty 80mm Suction Mount with a 1/4"-20 Mounting Bolt. The Heavy-Duty Suction Mount is ideal for car windshields. This tough, low-vibration pedestal measures approximately 6.5 inches high from the bottom of the mount base to the top of the mount shaft (not including holder), and is made of a combination of plastic and glass fiber. It features an 80mm TPU suction base that works well in all climates. The arm of the pedestal swivels on both the top and the bottom, providing 360-degree rotation and the ultimate flexibility in positioning the camera at any angle. To install, simply clean the mounting area with the included alcohol pad to ensure an optimum grip, then set the pedestal and push down on the one-touch lever to engage the suction. Simply screw the camera's 1/4"-20 mounting pattern onto the mount's 1/4"-20 mounting bolt and position the mount and camera as needed by loosening or tightening the side adjustment knob.

**FEATURES:**

- Mount is compatible with cameras having the 1/4 20 mounting pattern
- Tough, low vibration 80mm suction pedestal attaches with a one touch lever and maintains a super strong bond
- 2 year limited warranty
