

AN150SR – Amplified AM/FM Antenna

Antenna mounts easily using adhesive foam strips and works great in heavy duty applications
Dimensions 14-1/2" w x 7/8" H x 3/4" D

1181067 – Top Mount AM/FM Rubber Radio Antenna

Features 10" rubber mast with 60" cable. Antenna adjusts to 90 degree angle. Surface mount angle installations of 0, 8 and 16 degrees.

JAN139 – 6" Top or Side Mount Rubber Mast Antenna

Attached 39" cable, 5.9" rubber mast prevents breakage associated with other metal antennas. Rubber gasket for water tight mounting. Mounting base adjusts complete 90 degrees for either side or top mounting

AN140 – 6ft. Two-Piece AM/FM Dipole Antenna

Small design means antenna can be hidden and it is flexible for easy installation in tight, hard-to-reach places. Dipole antenna helps get better reception and superior performance over a single wire antenna.

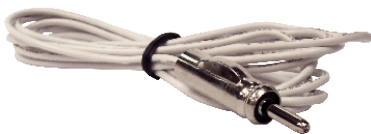

AN110 – AM/FM TOP MOUNT PULL-UP ANTENNA

Five section, collapsible antenna, 39" mast with 48" cable, adjustable 35-degree angle, removable rubber cap for locking or unlocking application (key provided)

1181039 – 14" Side or Top Mount Rubber Mast Antenna

Prevents breakage associated with normal metal mast antennas, Rubber gasket for watertight mounting, mounting base adjusts complete 90 degrees for either top or side mounting.

8309819 – 65ft. Soft Wire AM/FM Antenna

6ft Soft Wire Antenna, works with any stereo.
