Sizes included in set: 1/4", 5/16", 3/8", 1/2", 5/8", 3/4" and 7/8"

For use on:

- Fuel lines
- Fuel filters
- Fuel pressure regulators
- Fuel return lines
- A/C Fittings
- Oil cooler lines
- Transmission oil cooler lines
- Radiator cooler lines
- Vehicle specific applications

INSTRUCTIONS

Select the appropriate [disconnect tool](#). The engagement tip should be approximately the same diameter as the spring or the open side of fuel line fitting. Twist tool to open and slip over fuel line with engagement tip facing the open or spring side of the fuel line fitting. Insert engagement tip into the fuel line fitting. A “click” may be heard as fuel line releases. Separate the fuel line pieces. Press the fuel line fittings together to connect.
