BBB INDUSTRIES REMANUFACTURED POWER STEERING PUMPS

Put BBB INDUSTRIES in the heart of the system

Power steering systems depend on the hydraulic fluid circulated by the pump. When it's time to replace this vital part, technicians and their customers want performance and value that lasts. That's why we use a reman process with an OE-quality focus.

Our Quality Focus

- Components are inspected and cleaned of rust and corrosion
- Shaft and internal surfaces are inspected, reconditioned and polished
- Seals and O-rings are replaced with all new parts
- Assembled units are end-of-line tested for leaks and performance

Applying our OE-experience and standards results in remanufactured power steering pumps that offer like-new quality and dependability in a broad range of applications for all makes and models.
