

About This Brush

The Professional Rubber Pet Hair Removal Brush extracts pet hair, fur, and lint from carpets, upholstery, and rugs. The unique brush uses soft and thick rubber bristles to scrub and clean cloth and carpets. The Pet Hair Removal Brush instantly removes hair from seats, carpets, and upholstery. The large round rubber bristles gently comb through fabric to actively agitate embedded hair and fur, and create static electricity to attract more hair and fur from deep within the pile. Flip to the side of the brush to gently squeegee hair and fur from low-pile fabrics, glass, or countertops. The unique extra-large bristles and soft rubber composite material makes this brush 100% scratch-free on all fabric, glass, and upholstery surfaces. Use the Pet Hair Removal Brush on car seats, floor mats, and carpets, and even throughout the home, office, pet kennel, or on your own clothing. The Rubber Pet Hair Removal Brush is easily washed with soap and water. It is reusable, and saves money on refilling expensive sticky lint roller sheets. Choose the Chemical Guys Professional Rubber Pet Hair Removal Brush to clean hair and pet fur all around the car, home, and office.

Removes Lint, Fur, Hair, And More

We love everything about our pets and companions... except the constant shedding all over the house and car! Pet fur, human hair, and lint can be difficult to remove from carpet or clothing, and the cost of lint roller sheets adds up over time. Comb and remove stuck pet fur, hair, and lint with the Chemical Guys Professional Rubber Pet Hair Removal Brush. The soft rubber bristles comb through carpet and fabric and gently pull strands of hair and fur to the surface. Push the fur along, then easily collect it with one quick swipe. The gentle scrubbing creates a mild static charge that attracts lint, fur, and hair like a magnet! Using the Rubber Pet Hair Brush actually pulls stuck hair and fur from deep within carpet for a thorough cleaning. Use the versatile rubber brush to pick up pet fur from carpet, cloth upholstery, or clothing without using any chemicals, electricity, or elbow grease. Spend less time cleaning up after your pets and more time loving them with the Chemical Guys Professional Rubber Pet Hair Removal Brush.

Reusable, Gentle, Durable

Removing pet hair is always a chore. Traditional tools use clingy cloth, sharp metal combs, and disposable sticky sheets of paper to pick up pet fur and lint. The problem is clingy cloth brushes don't work, metal combs scratch and damage cloth surfaces, and disposable sheets pollute the environment and cost money. The Professional Rubber Pet Hair Removal Brush effectively scrubs and pulls fur, hair, and lint from cloth, carpet, and clothing. Simply combing over a cloth surface with the Rubber Pet Hair Removal Brush charges the brush with static electricity, and attracts fur and hair like a magnet. The thick rubber brush is built with a durable metal wire core, and lasts for years of detailing use. The brush has no moving parts, requires no electricity or chemicals, and has no expensive disposable sheets to replace. The soft rubber is gentle on all carpets, cloth, and upholstery, and helps preserve the original look and feel of any surface it cleans. Choose the Chemical Guys Professional Rubber Pet Hair Removal Brush for all pet fur, hair, and lint removal needs.

Versatile Brush For Multiple Surfaces

The Professional Rubber Pet Hair Removal Brush pulls pet hair, fur, and lint from all types of cloth, carpet, and upholstery. Simply brush the area to remove pet hair from cloth car seats, carpets, furniture, pet beds, blue jeans, slacks, khakis, blankets, and more. The soft rubber bristles push and pull strands of hair, fur, and lint out from deep within cloth and carpet. The gentle scrubbing action creates a static charge that attracts hair and fur from deep within cloth and carpet, and sucks up loose fur and hair like a magnet! Brush up the car after taking the dog to the park; clean excess fur from the couch and pet bed; brush the cat hair off your laps and cushions; flick dandruff off lapels and shoulder pads before heading to work; pull all the excess hair from the bathroom floor mat, squeegee off the counter for a spotless shine—the uses are unlimited! Choose the Professional Rubber Pet Hair Removal Brush to remove hair, fur, and lint from carpet, clothing, and much more.

How To Use:

- For best results, first vacuum any loose dirt and debris from carpets or floor mats.
 - Brush off any stuck-in fur and hair with the Professional Rubber Pet Hair Removal Brush.
 - Gently rake the surface in one direction to push and pull fur and hair from carpet, clothing, and upholstery.
 - The brush may build up a static charge; use the static to pick up loose fur and hair like a magnet.
 - Pick up any loosened hair and fur by hand or with a stiff bristle brush, then dispose of it properly.
 - To clean the Professional Rubber Pet Hair Removal Brush, rinse it with warm running water and a gentle all purpose cleaner, like NONSENSE, as needed.
- Chemical Guys puts everything within reach. Check out the collection of shop supplies & consumables we offer.
