

## How It Works

Chemical Guys Tough Mudder Truck Wash Off Road and ATV Soap is the car wash shampoo for extreme off roading enthusiasts. Thrashing through the bush, flying over jumps, and plowing through mud and sand is tons of fun, but the filthy machine sitting in the driveway is an eyesore! Wash any mud, dirt, and filth from your beloved ATV, quad bike, dirt bike, adventure bike, mudder truck, 4 x 4, and dune buggy with the easy-to-use Tough Mudder Soap. The versatile formula works great in any bucket wash, or with a pressure washer and foam cannon for added cleaning power. Spray Tough Mudder Soap over dried mud and dirt, then watch it all slide right off the paintwork, glass, wheels, engine bays, and undercarriage parts. The thick soap clings hard to abrasive dirt and sand, releases it from the surface, and surround it with slick lubricants to help prevent swirls and scratches with every wipe of the wash mitt. Use the two-bucket car wash method to prevent swirls and scratches on any paintwork at every wash. Specialty surface release additives make it harder for fresh dirt and mud to stick to the washed surface. Clean your off road vehicle after a ride, and make it even easier to clean next time with Tough Mudder Truck Wash Off Road and ATV Soap.

## Thrash, Clean, Repeat

Taking a high performance vehicle off road is always lots of fun, but thanks to Tough Mudder, so is cleaning and maintaining the machine! Chemical Guys Tough Mudder Truck Wash Off Road and ATV Soap is the first vehicle wash soap developed for cleaning and protecting off road vehicles. Spray thick soapy foam over any bike, quad, truck, or buggy to melt away stuck on mud, dirt, plants, sand, and debris. Pick up mountains of cleansing suds with a premium wash mitt and gently remove debris without installing any swirls or scratches. Tough Mudder strips dirt, mud, and grease from paintwork, wheels, undercarriages, and engine bays on any off road vehicle. But the pH-balanced solution is safe for wax and sealant coatings, and helps preserve a strong bond to keep paintwork protected against the elements. And unlike traditional wash soaps, Tough Mudder is blended with a surface release agent that makes it harder for mud to stick to the surface. Washing any off road vehicle with Tough Mudder makes it easier to clean it next time, so you can spend less time washing and maintaining your ride, and more time thrashing through the trails, race circuit, and through the mud. Clean, protect, and maintain your favorite off road bike, quad, buggy, or truck with Chemical Guys Tough Mudder Truck Wash Off Road and ATV Soap.

## Part Of Regular Maintenance

Your life depends on your equipment when you're riding hard off road. Imagine landing a jump without knowing about a loose spoke, or madding on the throttle with improper chain tension, or ripping the brake only to find the handle is sticking. Regular cleanings with Tough Mudder Truck Wash Off Road and ATV Soap is crucial for ensuring maximum performance and safe operation of all vehicle functions all the time. Cleaning your bike, ATV, or truck is a time when you can thoroughly inspect parts and areas you normally don't see. Getting in depth with drivetrain, suspension, braking, and structural components is a prime time to diagnose any faults and fix small problems before they leave you stranded in the wilderness, or worse... Prevent accidents by checking the throttle for proper action. Take the time to check all hoses and lines are in place and free of breaks and cracks while cleaning engines. Look for loose bolts or frayed belts around harnesses and safety restraints. Find oil leaks early to save an engine, and replace a strut in lieu of a leaky fork seal to make landings much softer and safer. Keep your machine clean and 100% functional to ensure safe operation, and keep it on the trails instead of the scrap heap with Chemical Guys Tough Mudder Soap.

## Ultimate Versatility

Quad bikes, dirt bikes, mudder trucks, and ATVs routinely get covered in thick mud and dirt. Smart off road enthusiasts save time and invest in a pressure washer to blast away stuck-on filth and grime. Chemical Guys Tough Mudder Truck Wash Off Road and ATV Soap works well in any wash bucket method, in a foam gun for added soapy suds, or in a foam cannon for thick clinging foam to clean any vehicle in seconds. Add just a couple ounces to your car wash bucket and activate mountains of suds with a sharp stream of water. Fill the foam gun or foam cannon solution bottle with water, then add 1 - 3 ounces of Tough Mudder Soap for the perfect foaming solution. Spray it on, wipe it off, let it sit, or wipe as you spray. Tough Mudder Soap cleans, shines, and protects any off road vehicle so it can look as great as it performs off the beaten path.

## Help Prevent Swirls And Scratches

When it comes time to remove standing water from your paintwork, use After Wash to speed up the drying process and protect the paint against swirls and scratches. Over 95% of swirls and scratches come from poor wash and drying habits, but the advanced lubricants and gloss enhancers in After Wash help any premium microfiber towel glide over paintwork with a slick scratch-free touch. After Wash is available in [4 ounce](#), [16 ounce](#), and [gallon](#) sizes.

## Looking To Strip Off Any Wax And Sealant?

If you're looking for a car wash soap that pulls off any old layers of wax or sealant as you prepare for a full detail, check out [Clean Slate Surface Cleanser Wash](#)! The specialty shampoo strips off any waxy coatings to prepare the surface for superior detailing work with a detailing clay bar or machine polisher.

## Other Sizes Available

Tough Mudder Truck Wash Off Road and ATV Heavy Duty Soap is available in [4 ounce](#), [64 ounce \(1/2 Gallon\)](#), and [1 gallon](#) sizes.

## How To Use:

- Always start by washing the tires and wheels first.
- Do not use the same wash water, bucket, cleaning tools, or drying towels on your car's paint as you do on your tires and wheels. Use a separate tools and products.
- Shake well.
- Shake Well.
- Add 1 - 3 ounces of Tough Mudder Off Road ATV Soap to 5 gallons wash water bucket.
- If washing with a foam cannon or foam gun, fill 32 oz foam gun/cannon soap solution tank with water and add 1 - 3 oz. of Tough Mudder Off Road ATV Soap to the soap solution bottle.
- Pre-rinse vehicle to remove loose dirt and mud.
- Spray vehicle with thick wash foam to lubricate the abrasive dirt and protect the paint against swirls and scratches.
- Rinse washing with wash mitt and Tough Mudder Soap Solution.
- Rinse using clean water for perfect shine.
- Surface release agents make it harder for future mud and dirt to stick to the vehicle.
