

## Lower Cost Aftermarket Alternative

*Repair your broken or malfunctioning anti-lock braking system with Dorman's aftermarket ABS module.*

**599-705**  
Chevrolet Silverado  
1500  
2000-99

- ✓ **Fully Remanufactured** and **vehicle simulator tested** for quality assurance
- ✓ **Plug and Play** for Easy Installation
- ✓ **Updated with more durable main pump transistors** to help prevent pump relay burnout
- ✓ **Covered by Dorman's Limited Lifetime Warranty**

### Failure Mode:

- Exposure to road debris and salt leads to corrosion and rusting in components causing loss of connectivity.
- Other aftermarket alternatives often use inferior components or materials that can lead to failures.
- ABS pump activates and fails to turn off, causing a dead vehicle battery.
