

DORMAN® TRUCK BED LED LIGHTING KIT

COMPLETE KIT TO COVER A TRUCK BED IN LIGHT

Over 200 advanced lighting SKUs available
covering over 130 Million Vehicles

Perfect for illuminating the bed of your truck, allowing you to keep working, even when it gets dark. This kit installs easily, without the hassle of drilling holes in your frame rails, bed rails or bed racks. The kits come with everything you need to light up your truck bed with the flip of a switch. The incredibly small size of the pods allows them to be easily hidden, and 5050SMD LEDs deliver a brilliant white light to completely cover your truck bed with light.

Part No. **87713**
