

Dr_x Beasley's™

Your Detailing Prescription

Application Instructions

- 1.** Shake well.
- 2.** Apply a small amount to the desired area and wipe immediately with a clean, dry microfiber cloth.
- 3.** Reverse the cloth, and polish until the surface is dry and sparkling.
- 4.** Complete one window or surface entirely before moving on to the next.

Additional Tips

For maximum results after cleaning, prep the glass with Dr. Beasley's pH Neutralizer, then protect it with Dr. Beasley's Glass IQ. Before applying, test a small amount in an inconspicuous place to check compatibility with surface.
