

DR_x Beasley's™

Your Detailing Prescription

1. Clean glass with an ammonia free cleaner.
 2. Mix 1 part isopropyl alcohol with 4 parts water. Spray the solution on your glass and wipe it off.
 3. Apply several drops of Glass Serum onto the suede cloth that's wrapped around your foam block applicator.
 4. Slowly and precisely move the foam block applicator in vertical lines down your glass.
 5. Move the applicator in horizontal lines across the glass to achieve a crosshatch pattern.
 6. Allow Glass Serum to dwell on the glass for 10 minutes.
 7. Wipe the glass with a clean, dry, tagless microfiber towel.
- * Wait 1 hour after applying this nano coating before driving. Do not wash the car for **7 days** after applying Glass Serum*
