

DR_x Beasley's™

Your Detailing Prescription

Instructions

1. Shake well.
2. Using a microfiber towel, apply a thin coat to the area.
3. Allow cleanser to penetrate, then work gently into the leather.
4. Wipe the surface, adding more product as needed.
5. Remove excess residue with a fresh microfiber towel.

Additional Tips

For maximum results after cleaning, prep leather with **Dr. Beasley's pH Neutralizer**, followed by **Dr. Beasley's Leather Cream**.

Before applying, use a small amount in an inconspicuous place to test compatibility with surface.
