

DR_x Beasley's™

Your Detailing Prescription

Application Instructions

1. Shake well, then spray directly onto a clean cloth or towel.
2. Wipe the desired surface with the cloth, adding more product as needed.
3. Dry the area with a new cloth after cleaning.

Additional Tips

For maximum results after cleaning, prep the surface with Dr. Beasley's pH Neutralizer then apply Dr. Beasley's Plastic Conditioner.

Before applying, test a small amount in an inconspicuous place to check compatibility with surface.
