

DR_x Beasley's™

Your Detailing Prescription

Application Instructions

- 1.** Using an interior cleaning brush, push microsuede fibers in one direction.
- 2.** Spray Microsuede Protection. Do not soak the fabric.
- 3.** Allow approximately 10 minutes for sprayed area to dry.
- 4.** Again using the interior brush, push microsuede fibers in opposite direction.
- 5.** Spray Microsuede Protection, again making sure to not soak fabric.
- 6.** Allow microsuede 24-48 hours to dry undisturbed for optimal protection.

Additional Tips

Do not allow this product to freeze.

Before applying, test a small amount in an inconspicuous place to check compatibility with surface.
