

DR_x Beasley's™

Your Detailing Prescription

Instructions

1. Add Matte Body Wash to empty bucket. (Dilution: 2 generous capfuls of soap per gallon of water used)
 2. Add water and agitate with wash pad to generate suds.
 3. Thoroughly rinse the vehicle.
 4. Begin washing car from top to bottom, section by section. Rinse wash pads often to remove dirt.
 5. After car has been thoroughly washed, rinse until all foam and suds are removed.
 6. Dry vehicle with soft, clean microfiber towels. (If following with Matte Paint Coating do not dry)
- Tip:** Wash car at least twice per month to keep finish clean.

Before applying, test a small amount in an inconspicuous place to check compatibility with surface.
