

DR_x Beasley's™

Your Detailing Prescription

Application Instructions

1. Shake well.
2. Pour onto a wax applicator or cloth.
3. Spread evenly across a small surface using a circular motion.
4. Let dry for 5-10 minutes until it turns to a haze, then wipe off with a microfiber towel.
5. Hand polish to a glossy finish.

Additional Tips

Product takes up to 2 days to completely cure, but allow to dry at least 4 hours before exposure to rain or snow.

Do not apply in direct sunlight. Do not allow this product to freeze during storage.

For maximum results, start by cleaning the vehicle with Dr. Beasley's Body Wash, then prep with an IPA solution. Before applying, test a small amount in an inconspicuous place to check compatibility with surface.
