

# DR<sub>x</sub> Beasley's™

---

*Your Detailing Prescription*

1. Before use, be sure the wheel is clean and dry.
2. Apply Wheel Seal using a soft cloth.
3. Let it cure by leaving it on the surface for several minutes, then use a soft cloth to hand buff for optimal protection  
For maximum results, begin by cleaning the wheels with our Premium Wheel Cleanser before applying Wheel Seal.

**Before applying, test a small amount in an inconspicuous place to check compatibility with surface.**
