MINIBARS

5587 SERIES SAE Class I 15" LED

Reflex™ LED minibars provide a compact yet powerful warning solution that offers the flexibility of either permanent, vacuum-magnet or magnet mounting. Featuring 12-24 VDC operation, the Reflex™ uses high intensity LEDs and reflective technology to maximize light output. Users can select from 18 flash patterns, either via trigger wire on permanent mount models or cigarette plug switch on magnetic models. Permanent mount models can also be synchronized to operate multiple lights alternately or simultaneously.
