IMPORTANT! Please read instructions thoroughly and study illustrations carefully before starting.

COMPONENTS:	QTY.
SHADEBLADE	1
Alcohol Wipe Pad	2

Masking tape required for mounting.

NOTE: The **SHADEBLADE** mounts to the painted surface of the truck cab with factory applied, double-backed tape.

MOUNTING:

1. Wash cab with solution of warm, soapy water. Rinse and wipe dry with clean cloth. Clean mounting area on painted surface around rear window molding with alcohol wipe pads and wipe dry with clean cloth.

2. Center SHADEBLADE on window and tape to cab with masking tape. Check for equal spacing on both sides of cab (and around 3rd brake light, if applicable) and adjust positioning if necessary. SEE **FIG. 1**.

3. Mark position of SHADEBLADE on cab with masking tape, as shown in **FIG. 2**, and remove SHADEBLADE.

4. Peel and fold mounting tape backing at both ends of mounting flange (as shown in **FIG. 3**) so backing sticks out from flange and can be grasped.

5. Line up SHADEBLADE with tape marks on cab (**FIG. 2**) and press against mounting flange at ends where mounting tape is exposed.

6. To remove mounting tape backing grasp and pull exposed ends away from SHADEBLADE as shown in **FIG. 4**.

7. Press firmly on entire length of mounting flange to seat mounting tape. **FIG. 4**.

FIG. 1. CENTER ON CAB and TAPE IN PLACE:

MASKING TAPE — MOUNTING FLANGE — MASKING TAPE — EQUAL SPACING · BOTH SIDES

FIG. 2. MARK EDGE LOCATIONS:

SHADEBLADE HELD IN PLACE WITH TAPE — EDGE LOCATION MARKED WITH MASKING TAPE AT BOTH SIDES

FIG. 3. FOLD BACKING AT BOTH ENDS of MTG. FLANGE:

MOUNTING FLANGE — MOUNTING TAPE BACKING — 1"–1½"

FIG. 4. PEEL TAPE BACKING AWAY FROM MOUNTING FLANGE... ...then PRESS FIRMLY ON FLANGE to SEAT MOUNTING TAPE — MTG. FLANGE — TAPE BACKING
