Helix

Corner Killer™ RX IFS

Your Prescription for the Ultimate Ride!

CORNER KILLER 1

Helix Corner Killer RX™

Front Suspension gives you a much smoother and softer ride than a 4-link dropped axle at a comparable cost. It adds more value to your car than any other type of suspension. And, with Helix engineering you get an unmatched, geometrically correct, safe ride. These kits fit frames easily, provide a 3-4" suspension drop, and are available pre-notched with no cutting or trimming required for an easy, hassle-free installation.

All kits include the necessary brackets and mounts needed to complete the installation, plus Helix's™ own detailed and illustrated step-by-step installation manual. Comes with a Limited Lifetime Warranty and Toll Free Tech Support from certified technicians that are available to help you from start to finish. Helix's Corner Killer RX™ complete system is perfect for the ultimate stance! The Corner Killer RX™ arrives complete from hub to hub. Helix's™ unique packaging system allows us to ship through common carriers such as UPST™, FED EX™, or USPS.

Mustang II IFS Kits

The Ultimate Stance

Front & Rear Steer Kits
3/16" Steel Plate
T.I.G. Welded

Helix's™ Mustang IFS kits is a natural conversion for your chassis, giving you a soft, smooth ride. We retain all the factory dimensions and locations, so you get all the benefits of Ford engineering in your front end. These kits fit frames easily and yield a 3"-4" suspension drop and are available pre-notched with no cutting or trimming required. Included in most kits are all the special, hard-to-make brackets and mounts you will need to complete the installation.

Mustang II Suspension Packages are available in both Deluxe and Economy versions, and both are available with or without crossmembers. Deluxe packages include plain tubular upper and lower full A-Arms, crossmember with all welds ground while Economy packages include crossmember with unground welds. All packages include: 11" five lug rotors; bearings and seals; springs; stock spindles; GM calipers with brackets and pads; manual rack and pinion with tie rod ends and bushings, spindle nut kit, and all mounting hardware. Comes with a Limited Lifetime Warranty and Toll Free Tech Support from certified technicians that are available to help you from start to finish.

IFS Kit Selection Chart

Follow the steps below to select your kit.

Base IFS Kit

Kit includes control arms, steering rack, tie rod ends, ball joints, spindle, rotors, calipers, brake pads, hardware, shocks, springs, castle nuts, cotter pins, bearings, spindle nuts, bearing race, Ball joint covers, bushing kits, and instructions.

1 Pick the type of IFS kit you want:

M = Mustang II IFS

C = Custom Corner Killer IFS

3 Include crossmember?

N = No crossmember

Y = Yes, I want a crossmember

5 Select the suspension setup that fits your needs:

These options are available if you choose **Mustang II platform.**

- 01 = Shock Through Coil
- 02 = Coilover Shocks
- 03 = Airbags
- 04 = Airbags with Manual Control
- 05 = Airbags with Digital Control
- 06 = Airbags with Digital Control and Remote
- 07 = AeroShocks
- 08 = AeroShocks with Manual Control
- 09 = AeroShocks with Digital Control
- 10 = AeroShocks with Digital Control and Remote

These options are available if you choose **Custom Corner Killer IFS platform.**

- 01 = Coilover Shocks
- 02 = AeroShocks
- 03 = AeroShocks with Manual Control
- 04 = AeroShocks with Digital Control
- 05 = AeroShocks with Digital Control and Remote

2 Use the chart to the right to determine your application code.

4 Choose the brake pattern you'd like:

A = 5 x 5

D = 5 x 4.5

B = 5 x 5.5

E = 5 x 4.75

C = 6 x 5.5

6 Choose your steering rack option:

ML = Manual LHD

MR = Manual RHD

PL = Power LHD

PR = Power RHD

7 Pick your spindle:

S = Stock Height

D = 2" Drop Height

C = Custom Dropped Spindle

Custom Dropped Spindles only available for Custom Corner Killer IFS for early Ford.

8 Choose your control arms:

A = Stock Raw

B = Narrow Raw

Helix

Solid Axle Front End Kits

The Honor of Tradition WITH THE TECHNOLOGY OF TODAY

Maintaining the original doesn't always mean maintaining the flaws of yesteryear's manufacturing processes. Why settle for old, worn out forgings and high metal porosity? With Helix's™ solid axle front end kits, you get the same geometrically-correct setup but with brand new tooling and a cleaner forging process for a much higher show-quality appearance.

& MORE!

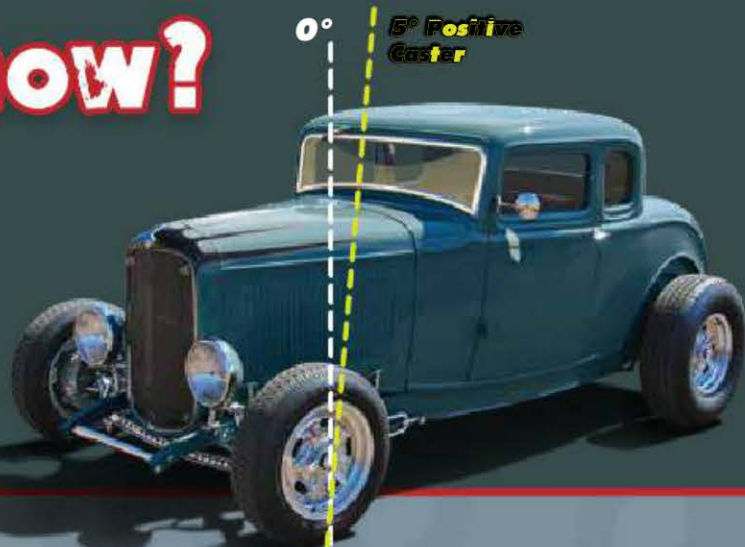

did you know?

Ford-based hot rods use
Positive Caster.

What is it?

Caster is the vertical tilt of the kingpin, which is the main pivot point for your spindles. When this angle is tilted back towards the rear of the vehicle, it's called **Positive Caster**, this improves the ability of your vehicle to track straight down the road and return to straight after a turn. Also, positive caster prevents the tires from having a tendency to wander or weave, and increases high-speed control of the vehicle.

Helix

see page **11** to pick a kit for your ride

Hairpin Kit

Complete kits feature everything you need for an easy installation. Axle, all shock hardware, panhard bar, hairpins, bushings, broke calipers, hubs, bearings, clevis pins, frame mounts, and dust caps. Traditional appearance done right!

4-Link Kit

For a traditional look but improved handling & geometry, the 4 link kit has it all. With the 4 link kit, your front suspension components obey the rules of the parallelogram, preventing any change in caster through movement of the suspension.

KITS COMPLETE WITH ALL YOU NEED

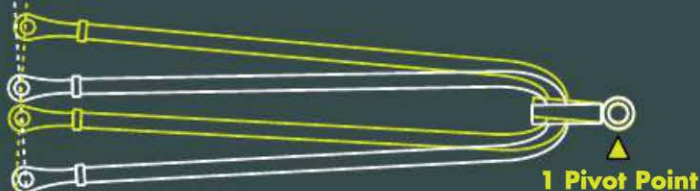

What this means for your Suspension & Control

Hairpin & Split Wishbone

Change in Caster

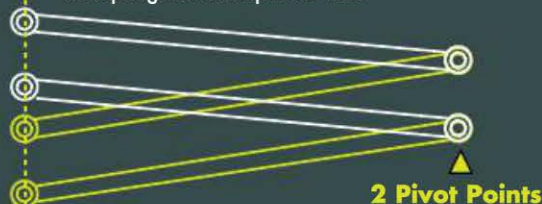

In this type of suspension control, the axle pivots from a center line. When one wheel encounters a bump, the caster angles on each side of the vehicle are different. The axle must twist to compensate and bump steer might be a problem.

4-Link Suspension

No Change in Caster

Behaving like a parallelogram, constant caster is maintained and the axle does not have to twist. The freely moving axle is dampened by only the shocks and springs for an improved ride.

NEW!

measure your axle for a spring

HERE'S HOW:

Measure the distance from spring perch boss to spring perch boss, from centerline to centerline. Take this measurement and subtract 5 inches- this is the width of your spring.

steering columns

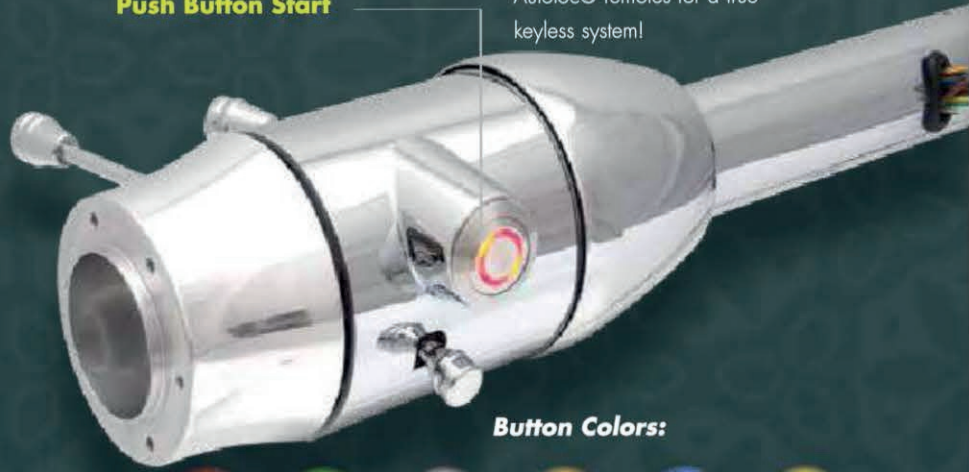

Nice Column! Helix's new steering columns offer 100% new components and GM style plugs and adapters for easy installation. Made from heavy duty stainless steel and are available in a mill finish or polished to a high luster. Each column offers 2" tube diameter and a unique compact shroud resulting in a sleek stunning appearance. All columns come complete with dress up kit that includes matching tilt & turn signal levers, hazard knob, and shifter lever.

For ergonomic comfort, Helix™ offers columns that feature a tilting design. All tilt columns include an illuminated gear indicator and self-cancelling turn signals. Detailed instructions and toll free technical support makes installation a "snap", even for the weekend mechanic.

Available in 2 styles- fixed and tilt.

Optional Built-In Push Button Start

Ditch your Key! Works with Autoloc® remotes for a true keyless system!

Helix

Air Genie™

Air suspension control system

Control your ride! Helix's™ Air Genie™ air bag suspension controller unit gives you complete control over your air bag suspension system. Featuring fully programmable settings and up to 8 user defined presets, as well as built in relay technology to control the air compressor, the Air Genie™ unit gives you total management of your air bag system. Control each individual air bag, front and back separately, or all four bags at once. Viewing and adjusting your settings is a breeze thanks to the unit's large LCD screen which features backlit illumination for easy operation at night. Backed by a limited lifetime warranty.

Remote Operation available!

SEMA AWARD WINNER!

Patent D503687 & 7,021,810 other patents pending

RJ11 DISPLAY CONNECTION
easy to install & extend

Alarm Lock down

Full protection! Air Genie™ offers full protection - pull up, drop your car to the ground and when you arm your alarm all your buttons become inoperable and the display reads 'Alarm'. Your car becomes completely theft-proof.

Total AirBag Control

Harness the true power of your air bag system with the Air Genie's advanced airbag control system, allowing you to adjust, control, and operate each bag independently of your air bag system, or in groups.

Up to Eight (8) Programmable Presets

Set up different ride heights and ride qualities for a wide variety of situations and terrain, all accessible on the fly with a simple push of a button. **Preset at your aligned height to prevent tire wear!** True one-touch operation!

PVT™- Programmable Valve Timing

Control your valve activation periods from a hundredth of a second up to a full second for the smoothest, most precise operation of your bags.

Air Line Hose

1/2" Nylon D.O.T approved air line, sold per foot. 1/2" airhose is used with either 3/8" or 1/2" valves. Using a larger diameter air hose allows air to move more freely through your lines, resulting in smoother air bag inflation and deflation and more precise ride height for your custom ride.

1/4" D.O.T. Approved Air Line

HEXAH1 #502086

3/8" D.O.T. Approved Air Line

HEXAH2 #16706

1/2" D.O.T. Approved Air Line

HEXAH3 #502109

Compressor Leader Hose

The Helix™ braided stainless leader hose is the perfect compressor-to-tank solution. Resists heat and wear from hot compressors and moving parts and allows for free and predictable flow of air for a dependable air system.

1/2" x 3/8"

Foot Long Hase

HEXLH1238NX38N- #501492

Air Tanks & Air Accessories

Compressor Wiring Kit

The Helix™ Compressor Wiring Kit comes with everything you need to wire up your compressor for flawless, dependable operation. Relay, 10 gauge wire, fuse holder and discreet remote activation switch.

- HEXHARN16 #09524 (relay not included)
- HEXHARN17 #09525 (relay included)

Air Valves

Helix's unique interchangeable synthetic diaphragm design allows you to rebuild, clean, or upgrade your valve with ease. Fully compatible with The AirGenie™ programmable valve timing technology, and the AeroKit™. Available in 3/8", and 1/2", and backed by a limited Lifetime Warranty.

- HEXAT3 #16702 3 Gallon
- HEXAT5 #16703 5 Gallon

Helix

Air Fittings & Connectors

Any Fitting You Need!

Helix's air fittings make running your air lines and fitting them to all your bags and other components a snap! These top quality fittings are leak free for a lifetime of use without worrying about being stranded with a malfunctioning air system. Simply follow the steps below to get all the fittings you need.

1 Choose the appropriate fitting series from the list below.

<p>A</p>  <p>Male to Male (Nipple)</p>	<p>B</p>  <p>90° Tube to Male Thread</p>	<p>C</p>  <p>3 Way Tube</p>	<p>D</p>  <p>Tube to Male Thread</p>	<p>E</p>  <p>Drain Valve</p>	<p>F</p>  <p>NPT Male to Barb</p>
<p>G</p>  <p>Plug Fitting</p>	<p>H</p>  <p>Tube to Female Thread</p>	<p>I</p>  <p>Female To Male Reducer</p>	<p>J</p>  <p>90° Female to Male Thread</p>	<p>K</p>  <p>Schroder Valve</p>	<p>L</p>  <p>Pipe to Compression to Compression</p>
<p>M</p>  <p>90° Female to Active Male Thread</p>	<p>N</p>  <p>Straight Tube to Tube</p>	<p>O</p>  <p>90° Tube to Tube</p>	<p>P</p>  <p>90° Male Thread to Tube to Tube</p>	<p>Q</p>  <p>Straight Male Thread to Tube to Tube</p>	<p>R</p>  <p>Straight Tube to Tube, Lockable</p>
<p>S</p>  <p>Straight Tube to Male Thread Reducer</p>	<p>T</p>  <p>90° Female Thread to Female Thread</p>	<p>U</p>  <p>Straight Female Thread to Female Thread</p>	<p>V</p>  <p>3-Way Barb</p>	<p>W</p>  <p>2-Way Barb</p>	

Helix

2

Size of the first end of the fitting:

14 1/4**12** 1/2**38** 3/8**06** 6mm**M1** 10mm**M2** 12mm**M8** 8mm**3**

Type of connection for the first fitting end:

N National Pipe Thread**F** National Pipe Thread Female**P** Push Tube**B** Barb Connection**4**

Size of the second end of the fitting:

14 1/4**12** 1/2**38** 3/8**06** 6mm**M1** 10mm**M2** 12mm**M8** 8mm**5**

Type of connection for the second fitting end:

N National Pipe Thread**F** National Pipe Thread Female**P** Push Tube**B** Barb Connection**6**

Size of the third end of the fitting:

14 1/4**12** 1/2**38** 3/8**06** 6mm**M1** 10mm**M2** 12mm**M8** 8mm**7**

Type of connection for the third fitting end:

N National Pipe Thread**F** National Pipe Thread**P** Push Tube**B** Barb Connection**8**

Using your sections from the previous 7 steps, fill in the boxes below to get the ordering code for your air fitting(s). If not applicable, leave blank.

Series		First Fitting Size	First Fitting Connection	X	Second Fitting Size	Second Fitting Connection	X	Third Fitting Size	Third Fitting Connection	=	Your Fitting			
HEXAF	+	<input type="text"/>	+	<input type="text"/>	X	<input type="text"/>	+	<input type="text"/>	X	<input type="text"/>	+	<input type="text"/>	=	Your Fitting

Examples:

HEXAF38NX38N

In this example, this would be the ordering code for a 3/8" NPT male to 3/8" male nipple fitting.

HEXAFE14N

In this example, this would be the ordering code for a drain valve fitting with a 1/4" NPT.
