LINE OUTPUT CONVERTER WITH LEVEL CONTROLLER

- Works with high power car stereos, up to 60 watts per channel
- Easily add a subwoofer to any car stereo
- Provides a signal sensing amplifier remote turn on output
- Converts car stereo speaker level outputs to RCA cable outputs
- Allows the addition of 2-channel or mono amplifiers to factory or aftermarket stereos
- Includes flush or surface mountable remote control with knob for adjusting subwoofer bass level from the dash
