EXHAUST

INVIDIA® DOWN PIPE

For a strong boost in power, the Invidia Down Pipe offers an alternative to other power-boosting enhancements. To see just how much power the Invidia Down Pipe can produce, a quick look at its dyno chart shows it easily added several horse-power units to the stock exhaust system. Each Invidia Down Pipe features a large 4-in stainless-steel bellmouth to enhance power by freeing excess gas. It sports a one-piece design, eliminating the need for the stock catalytic converter. In addition, each Invidia Down Pipe can be bolted up to any Invidia Exhaust or a stock exhaust for an easy installation.

INVIDIA® G200 EXHAUST

If performance is what you are seeking, the Invidia G200 Exhaust delivers. Each G200 Exhaust features a super-strength titanium tip with an expanded tip size to maximize exhaust air flow. On top of performance, the colored titanium tip gives the G200 Exhaust an aggressive look. The G200 Exhaust is the latest line of top-end Invidia exhausts.

INVIDIA® N1 EXHAUST

For a good balance of price and performance, Invidia offers the motorsport enthusiast a strong line-up of Invidia N1 Exhausts. Each Invidia N1 Exhaust is constructed with high-quality SUS304 stainless steel, CNC-machined flanges, and manufactured with a polished finish. Each system features mandrel-bent stainless steel piping for maximum exhaust flow and reduced back pressure. These exhausts are engineered to produce strong mid to top-end power gains, as well as an increase in horsepower and torque.

ENGINE

VISION™ ENGINE PARTS

Whether it is performance or looks that matter to you, VISION brings these under-the-hood parts to rev up or dress up your engine. For performance, the VISION Exhaust Manifold (also referred to as the VISION Header) features a 4-1 design that assures the most efficient airflow along its polished stainless steel body. Its construction consists of mandrel bends and TIG welds to ensure maximum performance and reliability. This VISION Exhaust Manifold is one of the many hard-to-find VISION performance products that have been test-proven by top race teams in Japan.

ACCESSORIES

VISION™ ACCESSORIES

From the VISION Carbon Fiber Mirrors to the VISION Hood Gas Damper, VISION accessories are designed with motorsport enthusiasts in mind, featuring top-quality materials and construction. The VISION Carbon Fiber Mirrors are the original mirrors that started the carbon fiber trend. These mirrors sport the light weight of carbon fiber as well as a sleek design to minimize drag. The VISION Carbon Fiber Mirrors have a light blue tint to reduce sun or headlight glare.

SUSPENSION

VISION™ SUSPENSION

To maximize your vehicle's handling performance, VISION offers performance-driven suspension parts including the VISION Strut Tower Bars, VISION Circuit Link Kits, and VISION Negative A-Arm. To maximize handling performance, the VISION Strut Tower Bars adopt the hollow pipe design with a strong steel body to improve the stiffness and response of the car when making tight, twisting turns.

BODYWORKS

CARBON IMAGE[®] CARBON FIBER BODYWORKS

Every car deserves to look good. From the aggressive styling of the Carbon Image Hood to the smooth curves of the Carbon Image Front Lip, these carbon fiber body parts not only deliver an edgy look to the race-inspired car, but also the light weight that carbon fiber is well known for.
