WHEREVER TIRES ARE CHANGED™

# VALVE BREAKER™

Quickly & easily remove valve stems from wheels!

• Solid ram bar  
(not hollow pipe)  
drives more  
energy into valve

## Compact and powerful!

- Made in USA from quality, high-grade steel
- Heat-treated punch for top performance and long life
- Pinch-preventing Safety Grip with vibration dampening tube grip
- Long-lasting baked powder coat finish
- T34B designed to fit into most 30" toolboxes
- Simple to re-build — only 3 components
- Available in two sizes:

Part No.  
35934

Part No.  
35936

PATENT PENDING

Model No.	EDP No	Description	Length	Weight
35934	T34B	Valve Breaker	27"	9 lbs
35936	T36B	Valve Breaker	45"	16 lbs

Repair Kit  
Part No. 35935

## Ken-Tool announces Valve Breaker™ tool

*Quickly removes valve stems from rims*

*AKRON, Ohio (DATE)* (June 15, 2010) – Ken-Tool, the world's leading manufacturer of professional tire service tools, has announced its latest tire service tool, the Valve Breaker™ to quickly remove valve stems from demounted wheels.

The patent pending Valve Breaker is compact and powerful; using a slide ram design to drive a heat-treated punch into the valve stem seat to easily pop the valve stem out of the rim after the wheel has been demounted. This allows the service technician to quickly remove the stem with the wheel on the floor. The slide ram is made from solid round steel bar stock to drive more energy into the valve stem to knock it out of the wheel quickly and efficiently.

The Ken-Tool Valve Breaker protects the operator with a rubber safety-grip drive handle and a vibration absorbing rubber grip on the outer tube. A protective flange at the top of the tube helps to prevent pinching, and an energy absorbing spring loaded punch assembly protects the wheel while reducing shock to the operator's hands.

The Valve Breaker is made in the U.S.A., and is available in two lengths: P/N 35934 – 27 in. (69 cm) and P/N 35936 – 45 in. (114 cm), and weigh 9 lb (4.1kg) and 16 lb. (7.3 kg) respectively. The shorter Valve Breaker (P/N 35934) fits conveniently in a 30" toolbox.

The Valve Breaker tool is easy to service, with three components needed to rebuild the tool – the punch, a spring and a roll pin. A Repair Kit, P/N 35935, includes these replacement components.

Ken-Tool products are available through leading tire industry supply distributors worldwide.

### **About Ken-Tool**

Ken-Tool is the world's leading manufacturer of professional tire service hand tools. Headquartered in Akron, Ohio, Ken-Tool has been providing the tire industry and automotive aftermarket with quality products for nearly 90 years.
