

# LUCAS OIL

## RACING ENGINE OILS

### TRUE HIGH PERFORMANCE RACING OILS

#### KEY BENEFITS

- GUARANTEE lower oil temperature, for longer oil life and less metal fatigue
- Provide a tougher, thicker oil film for maximum protection against metal to metal contact
- Have higher lubricity for faster acceleration and more RPM's
- Protect against oil cavitation (foaming), a must for high revving engines
- Help maintain more consistent oil pressure, even with a high degree of fuel contamination
- Resist breakdown from contact with racing fuels at least 50% longer than conventional racing oils
- Safely blend with other engine oils, even synthetics

SAE 50 PLUS  
PART # 10347 (160 OZ)

60 PLUS  
PART # 10910 (160 OZ)

70 PLUS  
PART # 10348 (160 OZ)
