Pressure Bleed Adapters

Mityvac offers ten pressure bleed adapters designed to fit the master cylinder and clutch slave cylinder reservoirs for most makes and models of vehicles sold in North America. Adapters **MVA800** thru **MVA808** fit the reservoir like the original cap, and have a rotating, low-profile, right angle connector design for access into tight locations. Adapters **MVA809** thru **MVA812** are for varying universal applications and offer a unique adjustable clamping design that applies pressure to the center of the adapter for a more uniform seal.
