

THE AUTOMOTIVE LIGHTING BENCHMARK

INSTALLATION
INSTRUCTIONS
SEALED7 2.0

WARNING: By reading this document, I agree it is only to be used as an educational guide. Morimoto Lighting makes no guarantee on any finished results, nor are they to be held responsible for any damage, misuse, or personal injuries. Use at your own risk. If you are unable to clearly understand and adapt the information below, professional installation is recommended.

PACKAGE CONTENTS

1X SEALED7 2.0 LIGHT

3X 16-14GA. WIRE T-TAPS

1X H4 INPUT ADAPTER
(OPTIONAL)

INSTALLATION

AS THE SEALED7 2.0 IS A DIRECT REPLACEMENT 7" HOUSING, INSTALLATION IS ONLY A PROCESS OF REMOVING THE EXISTING HOUSING AND REPLACING IT WITH THE NEW HOUSING. REFER TO THE MANUFACTURER'S SUGGESTED PROCESS OF HOUSING REMOVAL FOR YOUR SPECIFIC MAKE AND MODEL.

WIRING

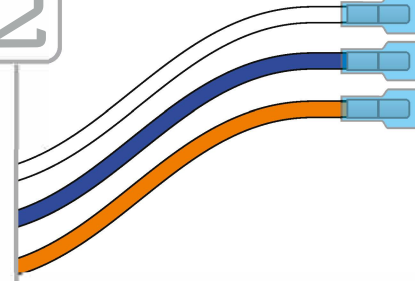

1

H4 Adapter (Optional)
H13 Input

The Sealed7 2.0 comes standard with a Delphi H13 male connector. If an H4 input is needed, adapters (SKU H770) are available.

2

DRL (12V+)
DIM RUNNING LIGHT
AMBER LIGHT (12V+)

These wires ground through the H13 connector and do not require an added ground. When 12V+ is applied to the blue wire, the DRL is dimmed. The white (DRL) wire must also have 12V+ for this function.
