

# BUYER'S GUIDE FOR BLUE MAX™ SPIRAL CORE CUSTOM FIT WIRE SETS

We've taken our race-proven Blue Max™ 8mm, 800 ohm Spiral Core Wire and packaged it in pre-terminated sets for most popular applications. This is the very same wire used by professional racers and engine builders to deliver maximum spark energy and provide the greatest protection against electro-magnetic interference (EMI). The result is superior ignition performance and excellent sound quality from your car's audio system.

**PRE-TERMINATED AND READY TO INSTALL!**
