

## Designed With 40 Years of MTX Experience

The RT8PT is the perfect solution for enthusiasts that want to put some bass in their system without having to put two 12"s in the truck. This single 8" subwoofer in a vented enclosure, is the perfect way to enhance your vehicle's sound system to give it that extra bump everyone loves.

## Amped Up

The RT8PT is fully integrated with a 100-watt amplifier built into the enclosure. Connections are easy to make using either the high or low level inputs depending on what source unit you are using including a factory radio. The external bass control enables you to adjust the bass level from the driver's seat so you can always get the best sound no matter what you are listening to.

## Simple Installation

The RT8PT's small footprint make it ideal to install in almost any vehicle, from a SUV to a 2-door convertible. Tie down straps are included in the box to make sure you can easily and safely secure the unit in the trunk or cargo area of your vehicle. The grey carpet and embroidered MTX logo are an attractive combination in any car.
