

OE WHEELS

2020 WHEEL COLLECTION

ABOUT OE WHEELS

OE WHEEL DISTRIBUTORS, LLC

With over 108,000 square feet of warehouse space and an inventory base of over 75,000 wheels, OE Wheel Distributors LLC is the industry leader in the design, engineering, manufacturing and distribution of replica and aftermarket wheels and accessories. OE Wheel Distributors strives to provide our wholesale customers with the most aggressive reseller pricing in the industry on our entire lineup of OE Wheels replica line, 4PLAY aftermarket wheels and Titan TPMS sensors.

OUR COMMITMENT

For nearly 20 years OE Wheel Distributors has maintained our commitment and dedication to every customer by providing them with:

- The highest level of commitment to Customer Service.
- The most knowledgeable and experienced representatives.
- The latest product developments.
- The most advanced product manufacturing technologies.
- The highest quality products on the market.

TIRES, TPMS & ACCESSORIES

For your convenience, we stock many tire brands such as Goodyear, Bridgestone, Toyo and Ironman, just to name a few, and have access to all of the major tire brands and sizes for a perfect fit on all of our wheel and tire packages. Every wheel and tire package is mounted and balanced using the latest technology from Hunter on our Hunter Road Force Elite Balancer free of charge. We can even install and pre-program TPMS before shipping, so all you need to do is bolt them on for your customer.

Wheels listed are manufactured by O.E. Wheel Distributors unless otherwise stated and are not affiliated with the vehicle manufacturer in any way or form. Any terms used to describe the product are used for fitment and descriptive purposes only. OE W states that our use of the vehicle manufacturer's trademarked terms in our product descriptions constitute fair use and nominative use and is in no way to offer confusion that O.E. Wheel Distributor's products and the vehicle's manufacturer's products are related or their companies.

EXCELLENCE IN MANUFACTURING & DISTRIBUTION

OE Wheels the largest independent distributor of wheels in North America, has taken their experience and passion to the next level once again. With nearly 20 years since incorporation and a combined total of 200 plus years of experience, their staff of enthusiasts have dedicated the past several years to design, engineer and manufacture the highest quality replica wheels at the most aggressive reseller pricing in the industry

STATE OF THE ART HEADQUARTER FACILITY SCHEDULED FOR 2020 COMPLETION

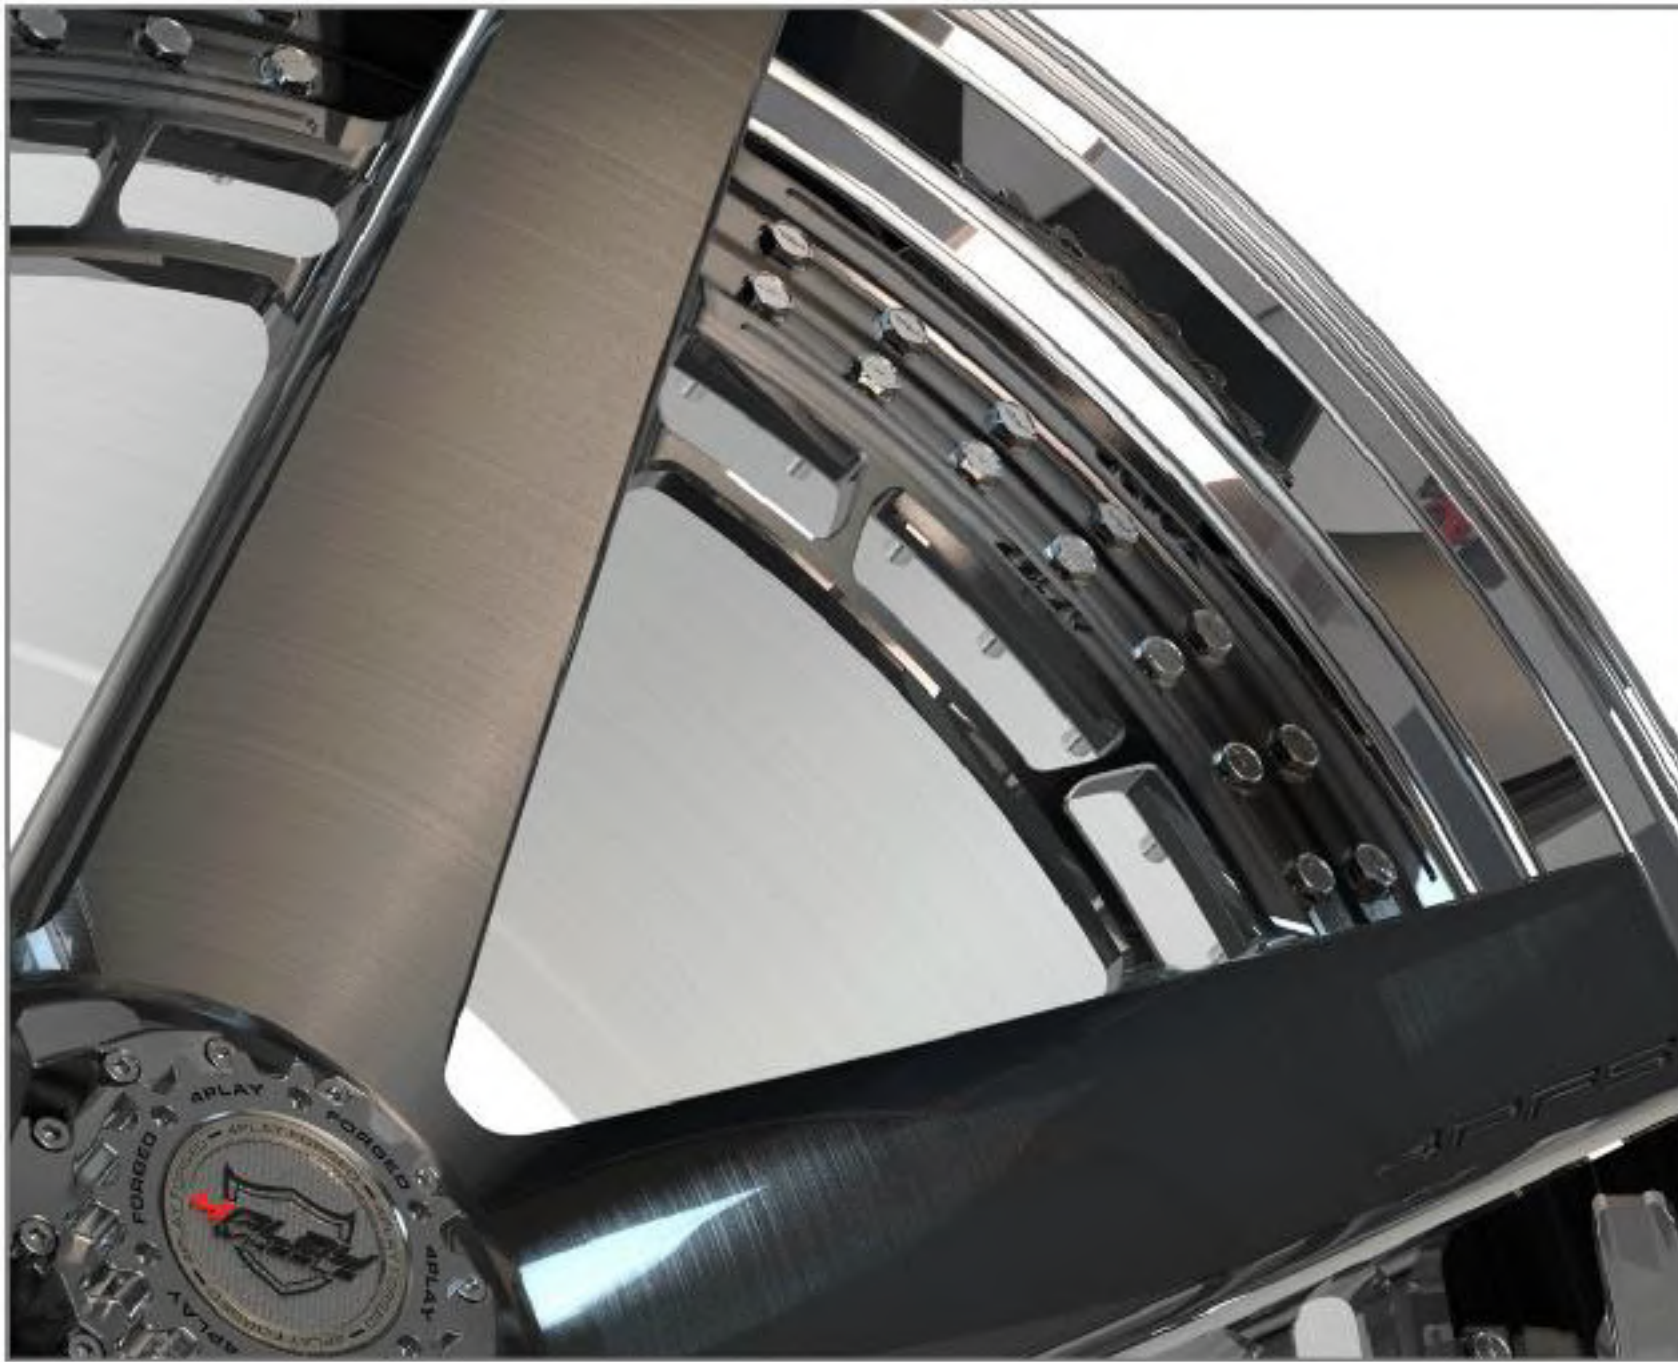

Our facilities will soon encompass 108,000 square feet of warehouse to office space and hold an inventory base of over 75,000 wheels in stock and ready to ship. Our in-house sales and marketing teams go through great lengths to provide excellent technical support and superior customer service, which has helped us maintain our A+ Rating with the Better Business Bureau.

INTRODUCING 4PLAY:

4PLAY Wheels are manufactured in a state-of-the-art facility that employs a fully automated manufacturing and testing process. Beginning with counter pressure injection molding for the 4P Gen 2 cast aluminum wheel series, each rim is then sent through a heat treatment process for increased fortification and is subject to x-ray examination along with pressurized immersion as part of an extensive quality control program. Load ratings of 2900/3900 lbs. and quality / runout specs specific to each wheel guarantees high performance under adverse conditions.
