

WHAT CAN I FIX?

RapidFix can produce High strength bonds in seconds. The RapidFix adhesive dries crystal clear and bonds most material instantly.

Some of these materials include: Rubber, Metal, Plastics, Copper, Aluminum, Steel, Glass, Most plastics

RapidFix welding powder is used in conjunction with the adhesive to repair all types of holes, cracks and gaps and can produce a strong weld seam to support the repair, just like solder or a welded joint.

RapidFix can also be used to build-up or replace missing areas of the part. RapidFix can be instantly drilled, filed and sanded. Because it dries clear, it can be easily painted or stained to any color for an aesthetically pleasing repair.

RapidFix is the only product that can instantly repair windshield wiper blades, radiator overflow tanks and air intake systems. RapidFix can also repair gas tanks, radiators, headlight housings and can be used for electrical wiring. Unlike all other instant adhesives RapidFix has a special formula that will not dry out in the bottle. **The product is backed up with a 12-month guarantee.**

COUNTLESS USES...

RapidFix is a unique product as it combines the ability to both instantly bond materials together and to also fill gaps, cracks and holes. The list below will provide a guide for you.

METALS

Bond and fill copper, steel, aluminum, brass, cast or pot metals

RUBBER

Repair hoses, door trims, toys, rubber seals, rubber sporting goods.

CERAMICS & GLASS

Repair ceramic pottery, glass ornaments and floor tiles. RapidFix dries crystal clear for a invisible repair. If filling is required, the welding powder dries neutral and can be colored to match the piece.

PLASTICS

Repair breaks, cracks splits & holes in many types of plastics that are used for appliances, plumbing, sporting goods, and toys.

WOOD

Can be used to instantly fill holes, cracks, gouges in many items such as doors, frames and floorboards. It can also be drilled, sanded, painted or stained.

FIBERGLASS & RESIN MATERIALS

Use on boats for repairs outside and inside and personal water craft. Make those emergency repairs at the dock or out on the water.

HOBBIES

Sports equipment, bikes, fishing and model making.

OUTDOORS

Hiking, camping, instant repairs for many parts of the RV, horse trailer, etc.

WHY USE RAPIDFIX INSTEAD OF SOMETHING ELSE?

The RapidFix Dual Adhesive System offers two types of Instant repairs in one product – binding materials together and filling holes or gaps. RapidFix conveniently combines both applications into one product.

Other bonding products such as epoxy based adhesives require longer drying times ranging from 5 minutes to 24 hours. Similar products like Body filler or putty can take approximately 30 minutes or longer to set. RapidFix sets instantly!

EXAMPLES

AUTOMOTIVE REPAIRS

HOUSEHOLD REPAIRS

WHAT IS RAPIDFIX?

RapidFix is a scientifically developed dual-component adhesive system comprised of a powerful, instant bonding adhesive and **Welding Powder**. The adhesive can be used alone or can be combined with the Welding Powder. The powder is formulated to harden instantly when it comes into contact with the adhesive. Together, the two are used to make repairs similar to a weld, as well as filling holes, gaps, and cracks.

The adhesive dries crystal clear so it is perfect for use on glass and ceramic repairs. The welding powder hardens opaque-white and can be painted immediately. The hardened welding powder can be instantly drilled, sanded, ground, filed, and painted.

The RapidFix Dual Adhesive System has a wide range of applications. It can bond almost any material to itself or to another material. Those materials include: rubber, glass, copper, aluminum, steel, and most plastics. It can be used to fill wood and ceramic as well as other non-porous materials. RapidFix will save you time and money. Your Home, Workshop, or Emergency toolbox should not be without this amazing product!

RAPIDFIX HAS ENDLESS VERSATILITY

Whether At Home, At Work, On the Road, On the Water or Even at Play, RapidFix can make simple emergency repairs wherever they happen!
