Race-inspired, American-Made  
Billet Aluminum Accessories and Stainless Steel Trim

## 2010 World Champion Chicago Blackhawks Chevy Camaro

The award-winning Project Vehicle Team at Gurnee, IL based RealWheels Corporation started with a bright-red, 2010 Chevy Camaro LT2, and in less than two weeks transformed it into this awesome “Blackhawk” Edition performance car. Like the team it represents, this beast is fast, eye-catching, and powerful.

### Custom Billet Accessories

The car features many new products that have just become available for the 2010 Camaro. This includes an assortment of precision-machined, solid billet aluminum parts manufactured by RealWheels Corporation. The custom fuel door is enhanced with a machined Blackhawk logo. Race inspired billet pedals were installed, and a sport-style race shifter was added.

### Stainless Steel Trim Accessories

The team at RealWheels installed their new stainless grille design to provide the car with an aggressive front-end appearance. They added side vent trim and a rear fascia trim piece to provide balance to the design.

**Give your organization the attention and media exposure it deserves!**

**A. S.S. Upper Grille Replacement**

Model: RW100-1-C

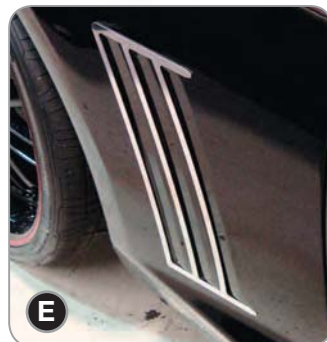

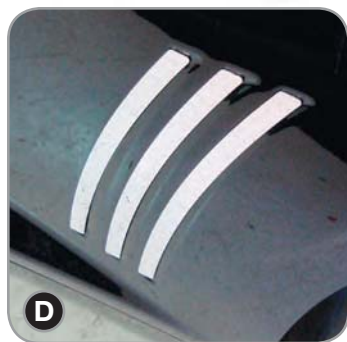

**B. S.S. V8 Lower Grille Replacement**

Model: RW101-1-C

**C. S.S. V6 Lower Grille Replacement**

Model: RW101-2-C

This aggressive Grille kit is a direct replacement to the factory plastic grille and it became an instant hit with America's professional restylers at the huge SEMA show. Created from mirror-finish stainless steel construction, it is guaranteed to NEVER rust or corrode.

**D. S.S. Rear Side Vents**

Model: RW118-1-C

**E. S.S. Rear Side Vent Surrounds**

Model: RW118-2-C

Laser-cut from mirror finish stainless steel, they accent the vehicle's molded rear fender, create visual depth, and the illusion of an actual working vent. Installs in seconds for a lifetime of good looks.

**F. S.S. Front Marker Light Covers**

Model: RW128-1-C

**G. S.S. Rear Marker Light Covers**

Model: RW124-1-C

**H. S.S. Reverse Light Covers**

Model: RW157-1-C

Make those marker lights look like custom replacements! Designed exclusively for the Camaro, each light cover is precision laser-cut from mirror-finish stainless.

Installation is easy, secure, and takes only seconds.

**S.S. Camaro Logo Surround**

Model: RW126-1-C

A perfect way to frame your new Camaro emblem. The surround is laser-cut from stainless steel to enhance the vehicle's logo, and will never rust, pit, or corrode.

**S.S. Front Bumper Scoop Bottom Plate**

Model: RW102-2-C

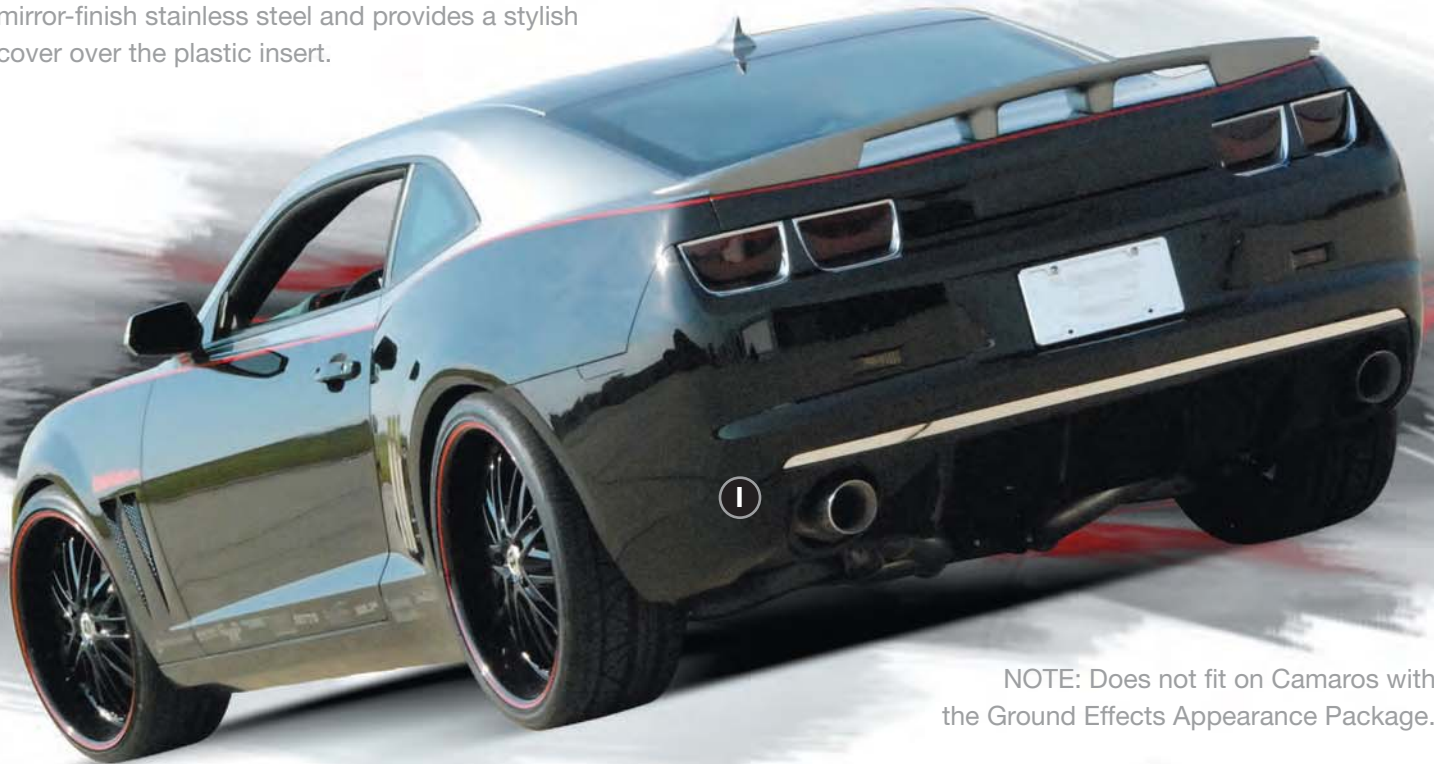

This is a bold way to add style to the front mail-slot vent that comes with the V8 version of the car. Each panel is precision laser-cut from mirror-finish stainless steel.

**I. S.S. Rear Bumper Fascia Trim**

Model: RW106-1-C

This rear trim accessory is precision laser-cut from mirror-finish stainless steel and provides a stylish cover over the plastic insert.

NOTE: Does not fit on Camaros with the Ground Effects Appearance Package.

**S.S. Exhaust Surrounds**

Model: RW153-1-C

Enhance the way those exhaust tips look with these stainless surrounds. Designed exclusively for the Camaro, each of these attractive surrounds are precision laser-cut from mirror-finish stainless steel for a lifetime of good looks.

**S.S. License Plate Panel**

Model: RW109-1-C

This popular accessory fills the empty cavity directly behind your rear license plate. Designed exclusively for the Camaro, each panel is precision laser-cut from mirror-finish stainless steel for a lifetime of stylish good looks.

**J. Billet Manual Pedal Set w/Dead Pedal**

Model: RW235-3-C    Black: RW235-3BP-C

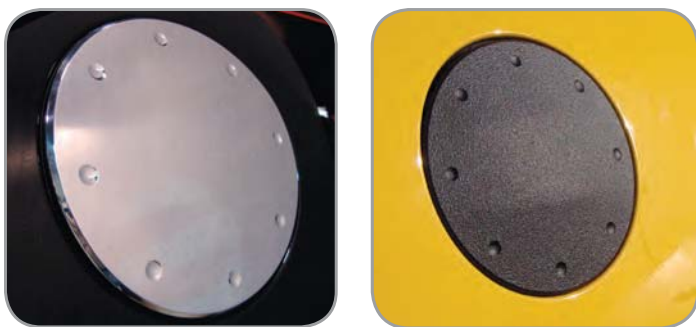

**K. Billet Manual Pedal Set**

Model: RW235-1-C    Black: RW235-1BP-C

**L. Billet Automatic Pedal Set**

Model: RW235-2-C    Black: RW235-2BP-C

These brightly polished, race-inspired pedals dramatically set your vehicle apart from the rest. The aggressive texture combines with luxurious styling to create one of the best accessories available for your new Camaro. You WILL notice the difference, whether you're on the track, or cruising the highway. Installation is quick, easy, and secure.

**Billet Fuel Door**

Model: RW202-1-C    Black: RW202-1BP-C

This solid billet fuel door was designed to add luxury and performance styling to the new Camaro. Installation is quick, easy and secure.

Power-grip rubber rings were then added for the ultimate in performance driving.

### Billet Manual Gear Shift Knob

**Model:** RW223-1-C    **Black:** RW223-1BP-C

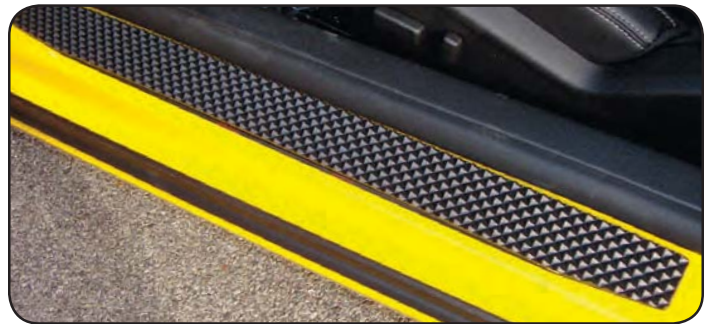

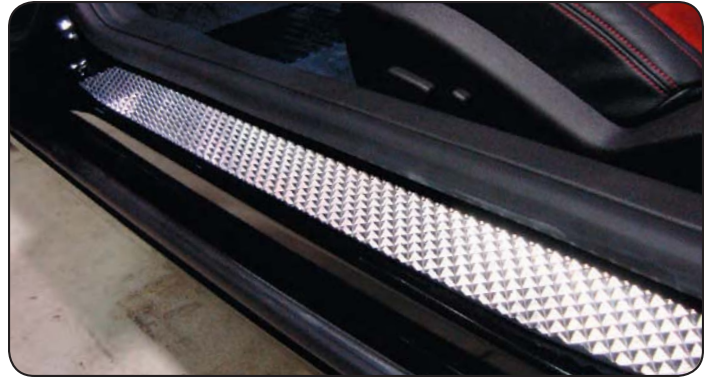

Feel the power of the new Camaro in your hand with this shift knob that should have come with the car. This solid billet accessory was designed to add luxury and performance styling. Installation is quick, easy and secure.

### S.S. Interior Door Panel Inserts

**Model:** RW152-1-C

Enhance the way the Camaro's interior looks with these stainless inserts. Designed exclusively for the Camaro, each of these attractive inserts are precision laser-cut from mirror-finish stainless steel.

### Billet Door Sills

**Model:** RW237-1-C    **Black:** RW237-1BP-C

### Billet Diamond-Cut Door Sills

**Model:** RW237-2-C    **Black:** RW237-2BP-C

From the aggressive texture to the bold styling, these custom door sills scream quality. Installation is quick, easy, and secure.

## Fire and EMS Vehicle Accessory Catalog

**We Don't Make Your Vehicles...  
We Make Your Vehicles Look and Perform Better!**

## RealWheels® and the Fire/EMS Industry...an All-American Winning Team.

American firefighters demand the finest, most reliable equipment available with minimum maintenance. That's why fire departments prefer RealWheels®, the only American manufacturer of Wheels Simulators and Axle Covers.

RealWheels is also the choice of American manufacturers for fire trucks and emergency vehicles. RealWheels produces the highest quality simulators, axle covers, fenderettes, grilles and door handles available anywhere. We use only heavy-gauge 304L stainless steel, aluminum and high-impact plastics. In fact, our mirror-shine finish stainless steel is guaranteed for life. Plus our patented mounting systems simplify installation and is D.O.T. approved.

We are proud to work closely with the American firefighting industry, and together we extend our appreciation to all firefighters for the work they willingly do in all the communities of our country.

# LED AirGuard®

**SET & GO** Tire Pressure Monitoring System

## Low Tire Pressure Is Dangerous!

Complies with the NFPA 1901 and 1917 Standards.

### The Easiest TPMS to Install, Calibrate & Re-Calibrate

- Safety – Improper tire pressure has a detrimental effect on handling, braking and control.
- Longer Tire Life – According to the D.O.T., 95% of all premature tire wear is caused by underinflation.
- Self-calibrating – LED AirGuard Set & Go memorizes pressure when initially installed and can be easily recalibrated by simply removing and reinstalling.
- Improved Fuel Economy – Proper tire inflation can save an estimated 3% to 5% in fuel costs.
- The Set & Go can be used on any tire pressure between 10psi and 200psi.
- Battery standby time is warranted for 2 years from the date stamped on the LED AirGuard.
- Ultra-bright LED allows for visual checks of each tire, even in daylight!

**DANGER**

**SAFE**

LED AirGuard Set & Go starts flashing RED if the tire pressure drops 5 to 10 psi.

#### RW-PPK-0402

LED AirGuard Set & Go (4-Pack)

#### RW-PPK-0403

LED AirGuard Set & Go (6-Pack)

#### RWTG1235

LED AirGuard Set & Go (Each)

POP Packaging & Display Available!

No tools required for installation.

**1. Check Tire Pressure**

**2. Thread On**

**3. Monitors Pressure**

Starts flashing RED if tire pressure drops 5 to 10 psi.

### Set & Go Anti-theft Locking System

The use of the Locking Nut to tighten against the Set & Go on the valve stem helps prevent theft.

## Tire Pressure Monitoring Kit

Includes: AirGuard™ Valve Caps, Inner and Outer Air Valve Extensions, plus Air Valve Extension Stabilizers.

For 19.5", 22.5" & 24.5" Aluminum Wheels w/ Round Holes and 22.5" & 24.5" Standard Steel Wheels w/ Oval Holes

### 6 Wheel Kit

Kit Fits

RWTG1235-62	for 2" round holes
RWTG1235-65	for 2.5" round holes
RWTG1235-68	for 2.8" round holes
RWTG1235-63	for oval holes (steel)

### 10 Wheel Kit

Kit Fits

RWTG1235-12	for 2" round holes
RWTG1235-15	for 2.5" round holes
RWTG1235-18	for 2.8" round holes
RWTG1235-13	for oval holes (steel)

## Valve Stem Stabilizers

These Valve Stem Stabilizers help prevent damage to extensions caused by the rubbing of the extension against the wheel. A worn extension may lead to air leakage and result in tire damage. Easy installation: simply align the rubber stabilizer with the valve extension and push into the wheel hole.

## Valve Stem Wear Is Dangerous

Centrifugal force of a rotating wheel (photo 1) will cause the valve stem to rub against the wheel and result in wear and eventual failure of the valve stem (photo 2).

American Road Series (shown)

RW1173-24AK Fits 22.5" Fronts

RWWLH2003-AXK Fits 22.5" Rears

22.5" to 24.5" Stainless Steel Simulators offer a front profile and deep rear inset that simulates the look of aluminum wheels.

## Why Fire OEMs and Fire Departments Choose RealWheels Simulators.

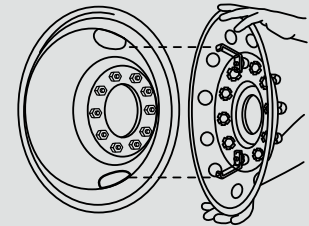

1. Dollar for dollar, RWC Simulators are the best value in the market.
2. RWC is the only American wheel simulator manufacturer.
3. All our simulators are made from heavy-gauge 304L stainless steel.
4. The only simulators that look like aluminum wheels.
5. They all have patented, over-the-lug style mounting, which does not require the removal of lug nuts.
6. They have more universal features and require fewer part numbers to fit a variety of wheel sizes.
7. RealWheels guarantees the durability of each simulator and its mirror-shine.
8. All parts can be ordered individually.
9. 22.5" & 24.5" rear simulators come standard with our American-made, high-quality, stainless steel braided valve extensions for easy air pressure monitoring and access.

Specifying steel wheels with RWC's American-made stainless steel simulators, instead of aluminum wheels, will not only save your department money now, but you'll also benefit from reduced maintenance cost due to our lifetime mirror-shine finish. Your fire truck's wheels will always look good. Guaranteed.

### RWC has over 30 years' experience developing mounting systems. Our innovative designs have been awarded numerous patents.

- Fits 20/22.5 x 7.50/8.25/9.00 and 22/24.5 x 8.25 wheels.
- For standard hub piloted, stud piloted and cast spoke wheels.
- Rear simulators fit wide-base wheels.
- High-quality, non-magnetic 304L stainless steel—will not rust, pit, corrode or turn yellow.
- Engineered to fit securely to steel disc or aluminum wheels with our patented over-the-lug mounting systems.
- The hook mount systems do not require excess stud.
- These systems do not disturb the torque of the lug nuts.

Covers also available for 2004 - 2011 Sprinter models.

Sprinter simulator design is patterned with the same number of cutouts as the factory wheel and is approved by Daimler Commercial.

- We've designed our EZ line of wheel simulators so they are EZ to install, EZ to clean and EZ to maintain. Plus they are offered at a lower price, which makes them EZ to purchase.
- Rear simulators have a new, extremely low center cap design that eliminates obstructions when servicing and creates the easiest wheel simulators to maintain and clean.
- High quality, heavy-gauge stainless steel.
- Patented mounting system — no lug nuts to remove.
- Sprinter & custom emblems available.

Integrated Lug Nut Covers— Offers the styling of lug nuts, without the hassle of cleaning around lug nuts.

20" and 22.5" Super Single Simulators for heavy duty front axles offer the only flush profile in the industry. This flush profile is crucial to maintain mandatory width offsets.

### Super Single Features

- High-quality, non-magnetic 304L stainless steel—will not rust, pit, corrode or turn yellow.
- For super single front hub piloted and stud piloted wheels.
- Fits 20/22.5 x 12.25 and 13.00 wheels.
- Simplified over-the-lug, patented mounting system.
- For heavy rated front axles.
- Easy D.O.T. Inspection.

Our simulators install easily on most super single wheels.

### Custom Sizes Available

RealWheels Super Single Covers can be designed to fit any super single wheel, even airport ARFF units.

Pop-In Centers for easy oil cap viewing.

**\*NOTE:** Axle, hub and wheel information required when ordering.

The only lug nut cover that provides safety, good looks, and a universal fit.

### The first 32/33mm Universal Lug Nut Cover with optional Loose Lug Nut Indicator.

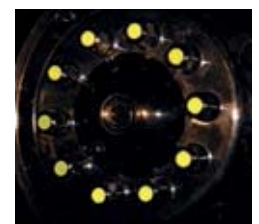

- Universal Design—Fits both 32mm and 33mm lug nuts.
- Lug nut cover is designed to accommodate our optional LugCheck Loose Lug Nut Cover Indicators—Allows for quick and easy visual inspection.
- High-quality, chrome plated ABS.
- Optional reflective inserts available.

Vibration and bolt fatigue are the leading causes of self-loosening wheel lug nuts and joint failure. Visual inspections by trained mechanics can detect a loosened wheel lug nut, however to an untrained eye, a loose wheel lug nut looks tight. That's why RealWheels has developed the LugCheck Loose Lug Nut Indicator. It's the only cover that combines the safety of a visual Loose Lug Nut Indicator with the beauty of a chrome plated lug nut cover.

Personalized domed logos or reflective inserts for added safety are available.

Optional reflectors dramatically increase visibility.

Complete Contract Manufacturing Serving Truck OEMs, Body Builders and Upfitters.

Sutphen Stainless Steel Grille & Light Housings

The I.D.E.A. division (Innovative Design & Engineering Applications) is the branch of RealWheels Corporation that assists your organization with various levels of design, engineering, and fabrication. This exciting division has effectively helped customers with tasks as simple as basic parts manufacturing, or as detailed as complete new product concepts and development.

We are passionate problem solvers, consistently dedicated to finding the best design and manufacturing solutions for our clients.

Our fabricating abilities allow flexibility to meet your technology and delivery requirements while staying within your budget constraints.

Meets NFPA Standards  
Custom stainless steel diamond pattern steps with non-slip extrusions.

Light Housing Wing Pocket Thermoformed and Chrome-Plated.

Bending, forming and welding of tubular stainless steel.

Chrome plated billet door handles for major OEM.

RealWheels is your source for custom sized Stainless Steel Fenderettes.

Rosenbauer Stainless Steel Grille & Light Housings

RealWheels is your source for custom sized Stainless Steel Fenderettes. We've built our reputation providing quality stainless fabrication and carry this expertise into every fenderette we manufacture. Rolled from 304 stainless steel then polished to either a standard, bright or mirror shine. Length, gauge, radius and hole placement to your specifications. Send us your specs for a free estimate.

We have effectively helped customers with tasks as simple as basic parts manufacturing, or as detailed as complete new product concepts and development.

Custom Brush-Finished Stainless Steel ARFF Cover

A leading heavy equipment manufacturer was preparing to unveil a new Airport Rescue Vehicle. They enlisted the help of the RealWheels IDEA team to design and engineer a protective stainless wheel cover. No cover had ever been developed for such a large wheel size, and a completely new mounting system had to be engineered. The team created a very industrial design with a machined-finish. The protective cover performs extremely well, greatly enhances the vehicle's appearance, and has become a popular option on new orders.

# Proudly Serving the Fire & EMS Industry for Over 35 Years!

**1978**

First wheel cover created to fit a cast spoke wheel.

**1987**

First super single front wheel cover for fire trucks.

**1994**

Patents the first ever adjustable rear wheel liner.

**2003**

First stainless Grille Overlay Covers for fire trucks.

**2009**

New LED TPMS designed to meet the NFPA 1901 standards.

**2015**

More new and exciting products to come!

**1984**

RealWheels opens 2,500 sq.ft. manufacturing facility.

**1991**

Patents the first universal front axle cover to fit front wheel with 4, 5, and 6 locators.

**1997**

Patents clamp and hook mount system to mount wheel covers/simulators to wheels.

**2006**

Contract manufacturing begins making custom aluminum door handles for fire trucks.

**2012-14**

Manufacturing complete stainless grilles, light housings and fenderettes.

## RealWheels is a Proud Sponsor of the Combat Challenge

RealWheels (RWC) has proudly produced the unique custom award plaques received by the winners of the Combat Challenge. To date we have manufactured over 2300 Combat Challenge plaques that have been awarded. RWC has been a proud sponsor of the Combat Challenge since the beginning of the event. It's our great pleasure to be a part of the Combat Challenge and to help recognize all these amazing firefighters.

AMERICAN MADE ACCESSORIES FOR THE TOYOTA FJ CRUISER

# The Ultimate Upgrade!

**Above:** The RealWheels FJ Beach Patrol Project Vehicle shown before and after its amazing transformation.

Depend on RealWheels to turn your FJ into the Ultimate On-Road or Off-Road Vehicle.

## Why Real...?

Do you demand the best? All RealWheels "Mirror-Shine" brush guards, side steps, and tail light guards are made in America from the highest quality, 304 stainless steel available. Inherently, all guard and step accessories will eventually encounter flying road debris, salt, off-road brush, or other obstacles. So, you can be certain that RealWheels' stainless products will perform to the highest standards, and never rust, tarnish or corrode. Each is built in the USA, and comes with a manufacturer's lifetime warranty.

Looking for great products, at a great price? The "Black-Finish" line of quality brush guards, tail light guards and side steps feature heavy, .065 gauge steel construction. Then, a durable powder-coated finish is applied and baked-on to resist chips or corrosion. Each is built in the USA, and comes with a 4 year warranty.

When it comes to billet accessories, the Engineers at RealWheels meticulously design each product to improve on, and enhance the vehicle's existing features. Every billet product begins as a solid block of T6061 aircraft quality aluminum. Each part is precision machined, and then polished and buffed to a mirror shine. To finish each item, they are either coated with a durable black powder-coated finish, or chromed with the industry's finest multiple-step plating process.

**Billet or Stainless, Bright or Black... Quality to the CORE!**

## THERE ARE VARIOUS TYPES OF FJ OWNERS

Some of you strive to expand on the Cruiser's strong off-road heritage that dates back to the 50's. The RealWheels design team remains committed towards developing products that live up to the Cruiser's passionate off-road legacy. Whether you choose a bright or black finish, quality and durability are never compromised.

Some desire to turn heads with a stunning street version FJ. RealWheels' custom chromed billet aluminum accessories, and stainless steel trim parts will definitely get the job done. RealWheels has designed an array of stylish accessories that will quickly set your FJ apart from others on the street.

## S.S. 3 PC GRILLE SET RW102-4-T0202 (3pc Set)

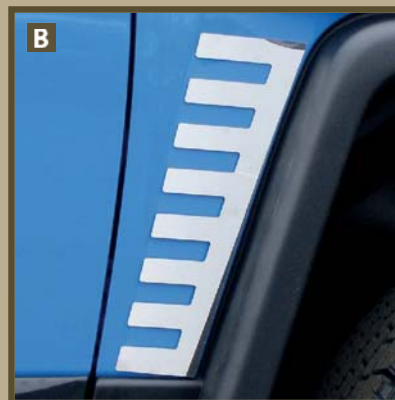

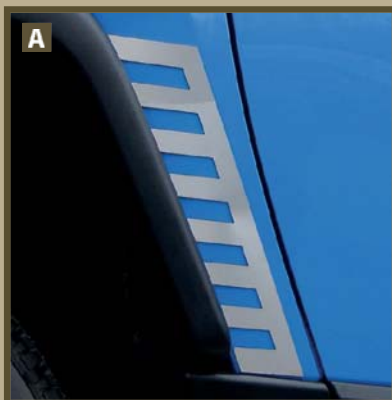

Precision laser-cut from 304 stainless steel, these grille inserts are the perfect way to give your FJ a custom look. Each installs over factory grille in minutes and offers a lifetime of style. Install as a set, or purchase individually.

- A. S.S. TOP HOOD GRILLE  
RW102-1-T0202
- B. S.S. MAIN FRONT GRILLE  
RW102-2-T0202
- C. S.S. LOWER BUMPER GRILLE  
RW102-3-T0202

## S.S. HOOD TRIM RW140-1-T0202 (2pc Set)

This trim accessory helps emphasize an important design feature found on Land Cruisers from 1955 – 1984. The parts are easily installed in minutes, and add character to the simple hood design. Each is precision laser-cut from mirror-shine, 304 stainless steel.

## S.S. LOGO SURROUNDS RW126-1-T0202

A perfect way to frame your new FJ emblems. Each is laser-cut from stainless steel to enhance the vehicle logos, and will never rust, pit, or corrode.

## S.S. LOWER ACCENT TRIM A. REAR: RW120-2-T0202 B. FRONT: RW120-1-T0202

Add these innovative louver-style design features to the opening of each fender. This trim design provides a sporty feature that looks like it should have come from the factory. Precision laser-cut stainless steel polished to a mirror-shine.

### S.S. TAIL LIGHT GUARDS RW306-1-T0202

The modern tail lights of the new FJ offer unique styling to the vehicle, but need some protection. Whether you're interested in function or appearance, these guards offer both. Constructed from stainless steel tubing, they install easily and securely.

### BENT S.S. TUBE WITH STEP-UP KIT RW401-5-T0202

The winning combination of stainless steel construction and the RealWheels popular Step-Up Kit create the perfect FJ side step. Built from 3" diameter 304 stainless steel, each tube is then assembled with a stainless steel cap that provides durable, non-slip footing for entering and exiting the vehicle. This exclusive system from the designers at RealWheels provides a vast improvement over the typical plastic step inserts that are found on most side steps.

## S.S. ROCKER PANELS

**Diamond-Plate: RW116-1DP-T0202**

**Mirror Shine: RW116-1-T0202**

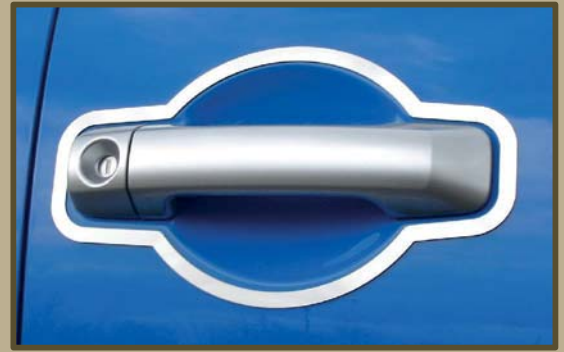

Give the side profile of your Cruiser an instant custom look with laser-cut stainless steel side rocker panels. Installs directly over factory panels in minutes, and is guaranteed to never rust, pit or corrode.

## S.S. WINDSHIELD VENT COVERS

**RW131-1-T0202**

Precision laser-cut vent covers are a perfect way to customize your vehicle. Installs in minutes over factory vents.

## S.S. HANDLE SURROUNDS

**RW122-1-T0202**

These attractive surrounds are precision laser-cut from mirror-finished stainless steel. Door handle surrounds provide a subtle, but stylish enhancement to the FJ, complimenting the silver tones of the wheels and bumpers.

## S.S. EXHAUST TIP

**RW308-1-T0202**

This 304 stainless steel tip will completely outlast any chrome tip. Polished to a mirror-shine, they are installed in seconds for a lifetime of good looks.

## S.S. WINDOW TRIM

**RW139-1-T0202**

Give the side profile of your Cruiser an instant custom look with laser-cut stainless steel trim. Installs in minutes and is guaranteed to never rust, pit, or corrode.

# RealBillet™

MIRROR FINISH BILLET ALUMINUM

Billet Aluminum Accessories are precision machined from solid blocks of billet aluminum, hand polished to a mirror-shine, then coated with the industry's finest chrome plating for the ultimate in quality.

## BILLET GEAR SHIFTERS

**RW223-1-T0202 (Large Knob)**

**RW223-2-T0202 (Small Knob)**

**RW223-3-T0202 (Combo)**

Precision machined from solid blocks of billet aluminum, these Shifter Knobs feature rubber rings for sure grip. Each are polished by hand to a mirror shine, and then plated with the

industry's finest chrome process. For FJs with automatic transmission. Installation is easy—simply screw on.

## BILLET MARKER LIGHT

**RW222-1-T0202**

The FJ's designers are proud that the small indicator lamps, which are part of the side mirrors, made it to production. RealWheels used their precision machining process to enhance these lamps with solid billet louvers.

## BILLET GAUGE CLUSTER BEZEL

**RW224-1-T0202**

Precision machined from solid blocks of billet aluminum, this Gauge Cluster Bezel is the perfect addition to the interior of your FJ. Polished by hand to a mirror shine, and then plated with the industry's finest chrome process. Installs easily.

## BILLET GRAB HANDLE

**RW216-1-T0202**

These interior grab handles are a "must have". The RealWheels team of engineers meticulously added ergonomic finger grips and design grooves that clearly illustrate their thick billet construction.

## FJ CRUISER BLACK SERIES

For those that demand the rugged and powerful appearance of black accessories, this series provides vehicle owners with proven functionality and unmatched durability.

### TAIL LIGHT GUARDS RW306-1BP-T0202

Whether you're interested in function or appearance, these guards offer both. Constructed from heavy gauge tubing and laser-cut guards. Install easily and securely.

### S.S. BLACK HOOD TRIM RW140-1BP-T0202 (2pc Set)

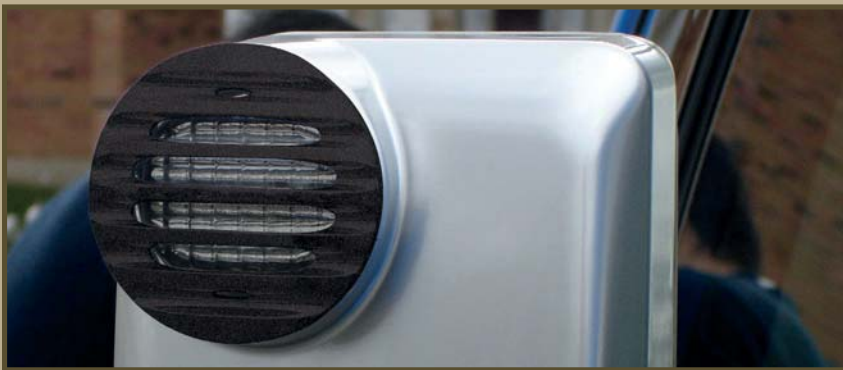

This trim accessory helps emphasize an important design feature found on Land Cruisers from 1955 – 1984. The parts are easily installed in minutes, and add character to the simple hood design. Each is precision laser-cut from 304 stainless steel then coated with a durable black finish.

## **RealBillet™**

BLACK FINISH BILLET ALUMINUM

### **BILLET MARKER LIGHT** **RW222-1BP-T0202**

The FJ's designers are proud that the small indicator lamps, which are part of the side mirrors, made it to production. RealWheels used their precision machining process to enhance these lamps with solid billet louvers. Each are finished with a durable black powder-coat.

### **BILLET GRAB HANDLE** **RW216-1BP-T0202**

Precision machined from solid blocks of billet aluminum, these interior grab handles are a "must have". The RealWheels team of engineers meticulously added ergonomic finger grips and design grooves that clearly illustrate their thick billet construction.

## BENT TUBE WITH S.S. STEP-UP KIT RW401-5BP-T0202

The winning combination of black powder coated tube construction and the RealWheels popular stainless steel Step-Up Kit create the perfect FJ side step. Built from 3" diameter tubing and assembled with an extra wide stainless steel step that provides durable, non-slip footing for entering and exiting the vehicle. This exclusive system from the designers at RealWheels provides a vast improvement over the typical plastic step inserts that are found on most side steps.

## S.S. LOWER ACCENT TRIM

**A. REAR: RW120-2BP-T0202**

**B. FRONT: RW120-1BP-T0202**

Add these innovative louver-style design features to the opening of each fender. This trim design provides a sporty feature that looks like it should have come from the factory. Choose front trim, rear trim, or both. Precision laser-cut stainless steel with a durable black finish.

## S.S. LOGO SURROUNDS RW126-1BP-T0202

These attractive surrounds are precision laser-cut from stainless steel and then coated with a durable black finish. Logo surrounds are a perfect way to frame your new FJ emblems.

## S.S. HANDLE SURROUNDS RW122-1BP-T0202

These attractive surrounds are precision laser-cut from stainless steel and then coated with a durable black finish. Door handle surrounds provide a more balanced appearance to the FJ, complementing the many black features of the vehicle's lower half.

Easily tilts forward with pneumatic cylinder assistance

## FJ CRUISER BRUSH GUARDS

All RealWheels "Mirror-Shine" brush guards are made in America from highest quality, 304 stainless steel available. Inherently, all guards will eventually encounter flying road debris, salt, off-road brush, or other obstacles. So, you can be certain that RealWheels' stainless products will perform to the highest standards, and never rust, tarnish or corrode. Each is built in the USA, and comes with a manufacturer's lifetime warranty.

Looking for great products, at a great price? The "Black-Finish" line of quality brush guards feature heavy, .065 gauge steel construction. Then, a durable powder-coated finish is applied and baked-on to resist chips or scratches. Each is built in the USA, and comes with a 4 year warranty.

### OVER-THE-TOP BRUSH GUARD **Shown Above**

**Stainless Steel: RW304-2-T0202**

**(Without Inserts: RW304-1-T0202)**

**Black: RW304-2BP-T0202**

**(Without Inserts: RW304-1BP-T0202)**

The most aggressive brush guard available for your FJ. RealWheels provides a more appropriate look for the FJ by using significantly larger diameter stainless tubing to produce these impressive guards, with a custom wrap-around styling. Available with or without horizontal inserts.

### FRONT BULL BAR **Shown Above**

**Black: RW311-1BP-T0202**

**Stainless Steel: RW311-1-T0202**

This Bull Bar adds extra front-end protection and is a great finishing addition to your FJ. Bull Bars are manufactured from 2.5" diameter tubing. Choose from mirror-shine stainless steel or black powder coated steel tubing.

## AIR HORN SYSTEM **RW502-1-T0202**

Over 135 decibels of powerful dual horns provide a freight train-like announcement of your arrival. Features a compressor for adding air to your tires in a remote location, or inflating those rafts and toys at the beach. The horns have an exclusive sound chamber design, rugged die-cast construction, stainless steel diaphragm, and are chrome plated. This Easy-to-Install system bolts right into existing space under the hood with NO Drilling. Connect the system two ways: Full time – Blows the air horn every time you hit the steering wheel horn switch; Or... Part time – Allows you to simply switch off the air horn whenever there might be a need to be discreet.

CRISS ANGEL  
**MINDFREAK**  
**PROJECT**

## It's dark, extremely loud, completely customized, and a little bizarre...

Picture this... it's Halloween in Las Vegas. Award-winning Illusionist Criss Angel is ready to reveal a mysterious magic-themed, custom vehicle. Over 100,000 aftermarket industry professionals share in the excitement as the star of the A&E television series "MindFreak" unveils the "MindFreak H2".

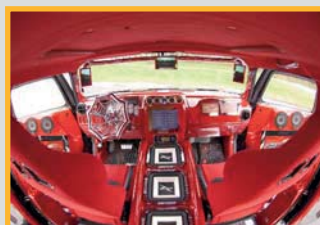

Known in the industry for its highly customized show vehicles, RealWheels Accessories faces the annual challenge of creating a vehicle that will top their

previous projects. Vice President Jhan Dolphin comments, "I've always been a big fan of magic. With SEMA 2006 opening on Halloween, we were presented with the perfect opportunity to create something very unusual. When I shared our vision with Criss, he was thrilled to be part of the project." And so, with the help of over 25 vehicle sponsors, RealWheels Accessories spent endless summer days creating the "MindFreak H2" that was presented by Criss Angel at SEMA Show 2006.

Built in the spirit of Criss Angel's A&E series "Mindfreak", the more one looks at this vehicle, the more interesting and unusual things one will find.

**H2****CHROME PLATED BILLET ALUMINUM**

# RealBillet™

**MIRROR FINISH BILLET ALUMINUM**

## **H2 OVERSIZED CHROME PLATED BILLET ALUMINUM**

Part of what attracts us to the H2 is its impressive size and dominating stature. So, why settle for the small, plastic factory parts? Go large with the wide variety of RealWheels Oversized Chrome Billet Aluminum accessories. Each part is precision machined from solid blocks of billet aluminum, hand polished to a mirror shine, and plated with the industry's finest chrome process for the ultimate in quality. The RealWheels team has meticulously added grooved design features to intensify the light-reflective qualities of each part and reinforce the appearance of thick billet construction. Because when you've decided to add style-enhancing accessories to your H2, size does matter.

BLACK FINISH STAINLESS STEEL

## H2 BRUSH & TAIL LIGHT GUARDS

Customizing your H2 is half the fun of owning it. From “mild to wild”, only RealWheels offers such an impressive selection of brush guards to adorn your vehicle. Unlike the common 1” diameter factory brush guards, these heavy-duty styles are produced from a combination of 1 $\frac{5}{8}$ ” and 2” diameter polished stainless steel that won’t rust, pit, corrode, or lose its shine. And, like all RealWheels products, these parts are easy to install and come with step-by-step instructions.

A

KC Slimlites are available for all brush guards. See page 22 for details.

MIRROR FINISH STAINLESS STEEL

## H2 SIDE STEPS

For those who appreciate "show truck" styling, RealWheels offers the ultimate eyecatchers with its diverse selection of side steps! All tubes are produced from the highest quality, hand polished, 304 stainless steel. Each extra-wide step is produced from polished stainless steel for lasting shine and durability. Or, for the ultimate in class and style, upgrade your steps with Solid Billet Aluminum Steps.

*All stainless steel side steps are available with a black powder coated finish. See price list for model numbers and pricing.*

## **H2 TOP GRILLES & HOOD HANDLES**

No one comes close to RealWheels' variety and quality of top grilles. Our Stainless Steel models are available in Classic Mirror Shine and Diamond Plate Off-Road Series finishes and are made from high-quality 304 stainless steel. Or, go all the way with a Billet Aluminum Top Grille that is precision machined from a solid block of billet aluminum.

*Our grooved billet aluminum hood handles feature an exclusive extra-wide design with finger grips and are available in a chrome plated or black powder coated finish.*

### 1-PC STAINLESS TOP GRILLE WITH BILLET ALUMINUM HANDLES

This one-piece stainless steel grille replaces the black plastic grille, and is further enhanced with RealBillet hood handles.

MODEL: RW101-5-A0102

### NEW & IMPROVED AIR HORN

With full tank pressure up to 135 psi, this on board air system will not only blow you away with the sound of it's horns, but can also pump up anything else you need. Horn has an exclusive sound chamber, rugged die-cast construction, stainless steel diaphragm, and chrome plating. Doubles as an on board air compressor for external use. Entire unit mounts under the hood with the option of mounting the air horns on the top of the vehicle. Fully assembled for easy installation. Includes everything needed: Dual horns, electric compressor, air tank, hoses, fittings, mounting brackets, extension, and coiled air hose.

Horn Measurement: 15¼"L x 7"W x 3¾"H; Decibels: 135 db  
MODEL: RW502-1-A0102

### LED LIGHTED BILLET ALUMINUM AND STAINLESS STEEL

Placed behind parts such as the rear billet upper louvers and side vents, these LED's reflect from various angles creating a jewel-like appearance.

LED LIGHTED LOUVERS: RW700-1-A0102  
 FRONT & REAR CROSS BAR: RW701-3-A0102  
 FRONT CROSS BAR ONLY: RW701-2-A0102

- REAR TOW HOOKS WITHOUT BOLT COVERS: RW505-2-A0102
- REAR BOLT COVERS ONLY: RW506-1-A0102

**Pull tested to 18,000 lbs!**

These stainless steel tow hooks can withstand the heaviest loads. Manufactured from high quality stainless steel, tow hooks will not rust like black or chrome plated tow hooks. Easy to install.

**CHROME PLATED PLASTIC AIR CLEANER COVERS**

These rugged, form fitted, chrome plated plastic air cleaner covers simply install over your existing body colored air cleaner covers, transforming them into a distinctive feature. **MODEL: RW501-1-A0102**

**CHROME PLATED FRONT SKID PLATE**

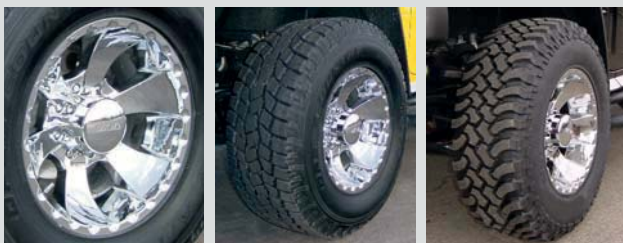

Give your existing Front Skid Plate a mirror shine finish! Send in your Skid Plate and we will polish it by hand and chrome plate it for the ultimate shine. Exchange program available. Also available in black. **MODEL: RW500-1-A0102**

**CORSA RSC SPORT PERFORMANCE EXHAUST SYSTEM**

This exhaust system offers a quiet and comfortable sound when cruising, but pounce on the throttle and hear this powerful system come alive! Dyno-proven 10 plus horsepower/6 ft lbs of torque gain; Dual Pro-series 4" polished exhaust tips; Made of 100% 304L stainless steel; Direct bolt-on installation; 50-state emissions legal; Guaranteed by CORSA for as long as you own your H2 (See CORSA's Limited Warranty for details.) **MODEL: RW510-1-A0102**

**DRASTICALLY INCREASE YOUR HUMMER'S PERFORMANCE!**

**Chrome Wheel**

**All Terrain Tire**

**Mud Tire**

**CHROME WHEELS & ALL TERRAIN OR MUD TIRES**

The Chrome Wheels with All Terrain Tires provide a smooth ride without heavy road noise. Or, choose the Mud Terrain Tires for an off-road look and traction. Chrome Wheels have a 3-year warranty.

- 18" CHROME WHEELS WITH ALL TERRAIN TIRES: RW508-1-A0102
- 18" CHROME WHEELS WITH MUD TIRES: RW508-2-A0102
- 17" CHROME WHEELS ONLY: RW508-3-A0102 (For Use With Factory Tires)

**BELANGER HEADERS**

Belanger has over 50 years experience building the best headers in the business. These super long tube, full size headers add measurable horsepower and impressive 40 ft. lbs. of torque. Laser-cut flanges; Emissions compliant, utilizing factory catalytic converters; High temp ceramic nickel chrome coating; Does not trigger "check engine" light; Includes headers, gaskets, hardware, hookups, and instructions. **MODEL: RW511-1-A0102**

*RealStainless*<sup>™</sup>  
MIRROR FINISH STAINLESS STEEL

**STAINLESS STEEL ROLL BARS**

Made from 3" diameter polished or black powder coated stainless steel, RealWheels Roll Bars won't rust, pit, corrode, or lose their shine. No drilling necessary. Three part assembly bolts together and on in minutes. Note: Cannot be installed with Tonneau Covers.

WITH HOOD HANDLES: RW100-3-A0103

WITHOUT HOOD HANDLES: RW100-1-A0103

### CHROMED ABS TOP GRILLE OVERLAY WITH BILLET HANDLES

ABS cap completely covers the factory grille and offers your vehicle the impressive profile of RealBillet hood handles.

WITH HOOD HANDLES: RW512-2-A0103

WITHOUT HOOD HANDLES: RW512-1-A0103

### REALBILLET TOP GRILLE WITH BILLET HANDLES

This solid aluminum grille replaces the plastic factory grille and features six 2" louvers that have been incorporated into the hood handle design.

MODEL: RW209-3-A0103

### 1-PC STAINLESS TOP GRILLE WITH BILLET HANDLES

This one-piece stainless steel grille replaces the black plastic grille, and is further enhanced with RealBillet hood handles.

WITH HOOD HANDLES: RW101-5-A0103

WITHOUT HOOD HANDLES: RW101-4-A0103

## H3 TOP GRILLES & HOOD HANDLES

RealWheels offers a remarkable selection of top grilles to dramatically enhance the vehicle's appearance. Choose a classic stainless steel top grille or overlay, the impressive RealBillet grille, or the budget conscious ABS style. Each design can be crowned with a pair of distinctive RealBillet hood handles. These handles are the best in the business, with light reflecting grooves and ergonomic finger grips precision machined into each.

RealBillet Hood Handles feature light reflecting grooves and ergonomic finger grips. MODEL: RW200-2-A0103

**BEAUTY,  
STRENGTH  
AND EASY  
INSTALLATION!**

### THE STRONGEST TOW HOOKS AVAILABLE!

**Only RealWheels H3 Tow Hooks have been pull tested to an incredible 22,000 lbs.** Manufactured from the highest quality 17-4 stainless steel (even stronger than 304 stainless), they perform as great as they look. Don't make the mistake of installing unusable billet tow hooks. (Billet tow hooks are designed to look good only, but can be extremely dangerous if put into a situation where strength is important.) RealWheels Stainless hooks are guaranteed not to rust, unlike painted steel or chrome-plated tow hooks. The cover plate and bolt covers are made from chrome plated ABS. This design does not require the removal of the front bumper to install. Complete instructions make installation quick and easy for a lifetime of good looks and powerful functionality.

**EASY-TO-INSTALL TOW HOOKS: RW506-4-A0103**

**CLASSIC TOW HOOKS: RW506-3-A0103 (see page 23)**

### CORSA CAT-BACK STAINLESS STEEL EXHAUST

Straight-through, 2.5" nonrestrictive design specifically tuned for the vehicle. Flow bench-tested 20.2% gain in exhaust flow vs. stock muffler. All 304L stainless steel construction, crafted with pride and precision in the USA. Patented CORSA Reflective Sound Cancellation™ (RSC™) Technology. Dual rear exit with handcrafted Pro-Series 4.0" tips for enhanced vehicle appearance. No welding required; Bolt-on installation. Includes hardware and illustrated installation guide. 50-state emissions legal. Complies with 95 dB requirement when tested in accordance with SAE test procedure, J1169 (May 1998). Limited lifetime warranty for as long as you own your vehicle. **MODEL: RW510-1-A0103**

### KC SLIMLITE® DRIVING KITS (100 WATT)

KC SlimLites feature a unique 6" round housing with a sleek, flat profile that allows them to fit where others won't. Optical quality glass lens, halogen bulb, and precision polished reflectors combine to generate a "super-bright" and specially focused beam of light. Available in chrome and black powder coated finishes. Kit includes 2 KC SlimLites, 2 protective stone guards, and pre-terminated relay wiring harness. (Long Range and Fog Light Kits also available.)

**CHROME: RW509-1-A0102**

**BLACK: RW509-2-A0102**

### CHROME WHEELS & ALL TERRAIN TIRES

REALWHEELS CORPORATION

American-Made Jeep Wrangler Accessories

**All 304  
Stainless Steel**

## Stainless Steel Grille Guards

All RealWheels Grille Guards Feature:

- All black powder coated and mirror-finish grille guards are made from 1-5/8" 304 Stainless Steel. Guaranteed not to rust, pit or corrode.
- Aggressive styling and front-end vehicle protection.
- No need to replace whole bumper like most full guards on the market.
- Built-in light tabs for accessory lights. (Accessory lights sold separately.)
- Easy installation. No drilling required.
- Made in the USA.
- Fits all Wrangler JKs 2007 to current.

## Easy Installation

## Stainless Steel “Enforcer” Grille Guard

For Jeep fans looking for more than just a typical Jeep Accessory. This Grille Guard provides the ultimate in aggressive styling and front-end vehicle protection. Available in a durable black powder coating or polished mirror finish.

### Mirror-Finish “Enforcer” Grille Guard

RW300-3-J

### Black “Enforcer” Grille Guard

RW300-3BP-J

## Stainless Steel “Over-The-Hood” Grille Guard

Give your Wrangler that “Take No Prisoners” attitude with the boldest guard available from RealWheels Accessories. The Over-The-Hood attractive styling also makes a bold statement from the vehicle’s side profile, as this extreme guard extends 8” back over the vehicle’s hood. Durable black powder coating.

Access under the hood is achieved quickly without tools, using quick-release bolts. Installation of this powerful new guard is extremely easy, using factory mounting locations, with NO DRILLING required. Built-in light tabs provide a perfect location for your favorite accessory lights.

### Black “Over-The-Hood” Grill Guard

RW304-1BP-J

Shown with TagLites. Sold separately. See page 5.

Installation of Over-The-Hood Bar and access under the hood is achieved quickly without tools, using quick-release bolts.

All 304  
Stainless Steel

Taglights Kit

All black powder coated and mirror-finish pre-runner bars are made from 304 Stainless Steel

NEW!

### Stainless Steel 2.5" Pre-Runner Bar

- This new bar is 54% larger than our standard Pre-Runner Bar and is an ideal way to enhance the JK's tough front-end design.
- 2.5" Stainless Steel will not rust, pit or corrode.
- Available in a durable black powder coating or polished mirror finish.
- Built-in light tabs for accessory lights. (Accessory lights sold separately.)
- Installation is easy and secure. NO DRILLING required.
- Made in the U.S.A. • Fits all Wrangler JKs 2007 to current.

Mirror-Finish Stainless Steel:

Black Powder-Coated: RW306-1BP-J

# AMERICAN-MADE COMMERCIAL VEHICLE SOLUTIONS

In 1978, I owned and operated a Kenworth truck and dump trailer, hauling sand and gravel. Consequently, keeping the truck clean was a constant chore. Nevertheless, I believed having a clean truck was a top priority and, like many drivers, I devoted a lot of time and energy to keeping the truck shining.

One day, I made the decision to tackle the challenge of dressing up the ugly cast-spoke wheels on my Kenworth. I grabbed some sheet metal, headed to my shop, and cut and formed some wheel covers and had them chrome-plated. I have to admit that they were pretty crude, but they greatly enhanced the appearance of my truck. In fact, the change was so dramatic that other truckers and operators quickly began asking where they could get a set. I applied for my first patent and kept showing other drivers my new wheels.

Not long after, my wife Sherri and I began manufacturing them out of our home. I hauled during the day and made wheel covers into the night. The demand began to grow beyond our in-home capabilities and we soon moved into a 2,500 sq. ft. industrial building. With the help of my Wife and my Father, the business flourished and the product line expanded.

Today, I am proud to say that RealWheels is the only U.S. manufacturer of these products and we've been awarded over a dozen U.S. patents for our innovative designs. We now operate from a 40,000 sq.ft. facility, offering hundreds of products, reaching into a variety of markets. Our primary focus remains consistent – to offer high-quality products at an affordable price. Our products now reach worldwide, and 99% are manufactured right here in America!

Drive safely, and thank you for your continued support.

# New Products at RealWheels

## TWIST & LOCK™ **AERO** COVERS

Twist & Lock Aero Covers provide you with a great appearance, fuel savings, plus easy-on install and easy-off removal.

## New Peterbilt and Kenworth Billet Pedals

No other pedals on the market come close to these Custom High-Quality Heavy Truck Pedals!

## LED AirGuard®

**SET & GO** Tire Pressure Monitoring System

*New and Improved.* The Easiest TPMS to Install, Calibrate & Re-Calibrate.

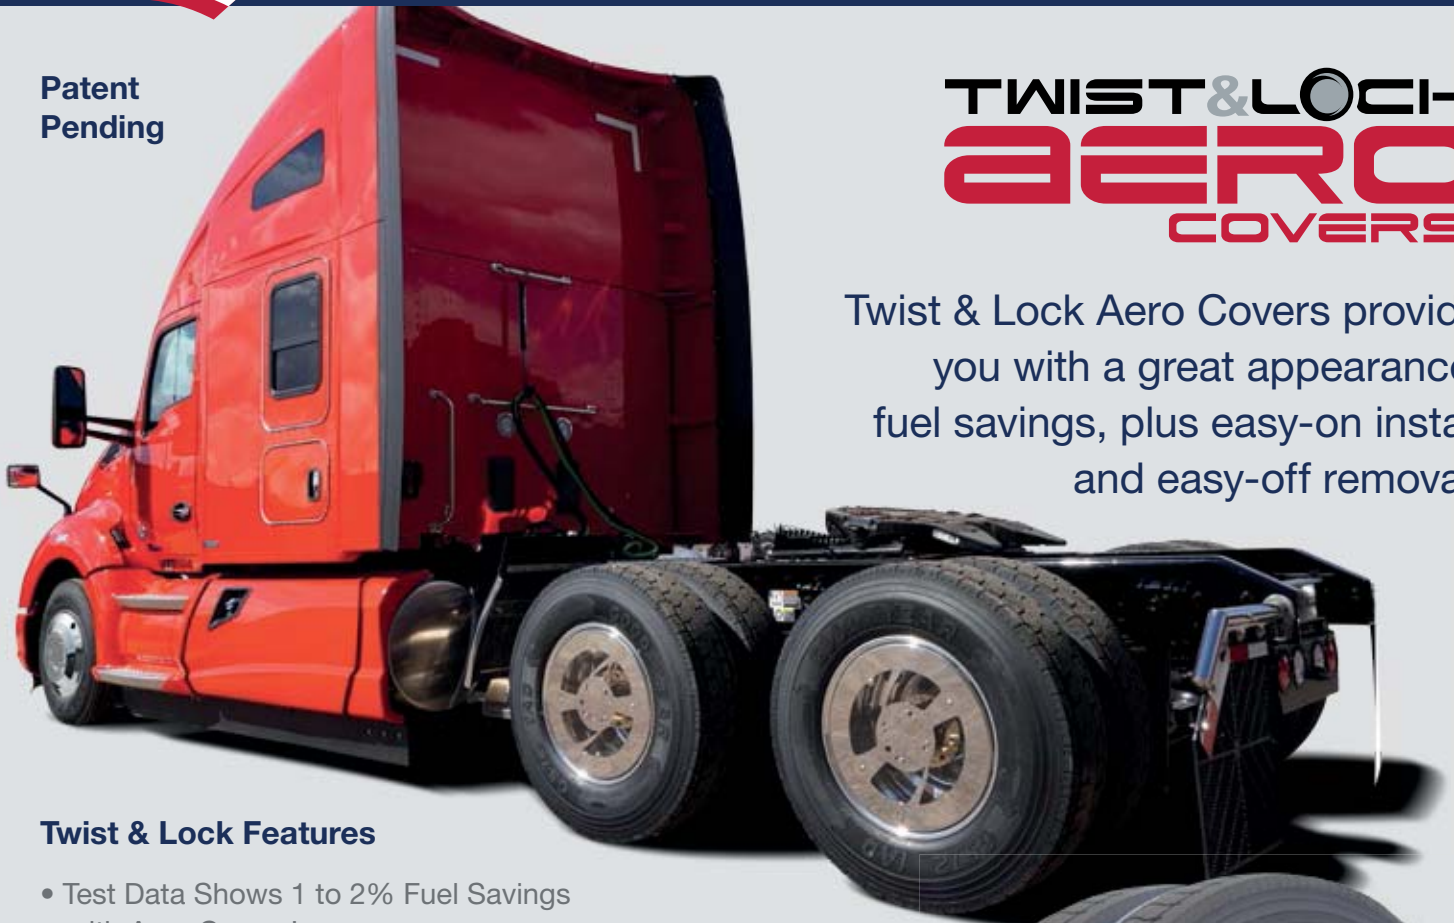

## EZ-Access Air Valve Extension Kit

EZ-Access Kit makes it easy to check tire pressure. Braided stainless steel extensions mount securely to the EZ-Access Air Valve Tabs.

Pending

**TWIST&LOCK™**  
**AERO**  
COVERS

Twist & Lock Aero Covers provide you with a great appearance, fuel savings, plus easy-on install and easy-off removal.

**Twist & Lock Features**

- Test Data Shows 1 to 2% Fuel Savings with Aero Covers!
- No tools required to install and remove covers

**Available For**

- All tractors and trailers
- 22.5" and 24.5" wheels
- 6x2 or 6x4 tractors
- Dual aluminum and steel wheels
- Wide base single wheels, including zero offset

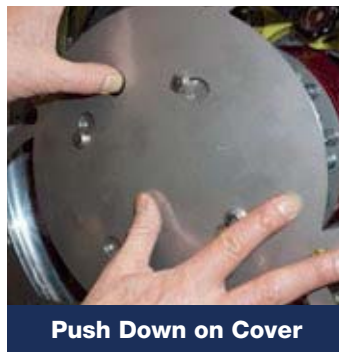

The cover attaches to the bracket and completely floats — it does not make contact with the lip of the rim or wheel in any way.

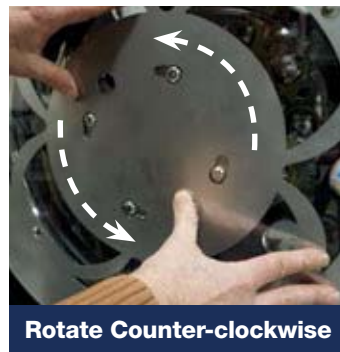

Easy Installation and Removal—Simply Twist and Remove or Twist and Install!

Push in Black Button

Push Down on Cover

Rotate Counter-clockwise

Easily Remove Cover

## Test Data Shows 1 to 2% Fuel Savings! For Dual Wheel Covers

**Best  
ROI**

### **Aero Mirror Stainless with Window: RW1043\***

The best of both worlds: a lightweight stainless Aero Cover with high-impact, clear polycarbonate viewing window. Polished to a mirror shine, this cover allows for easy viewing of axle and lug nuts.

### **Aero Mirror Stainless RW1042\***

This lightweight stainless cover is polished to a mirror shine. The Aero Stainless Mirror is an attractive option for the trucker looking to set their rig apart.

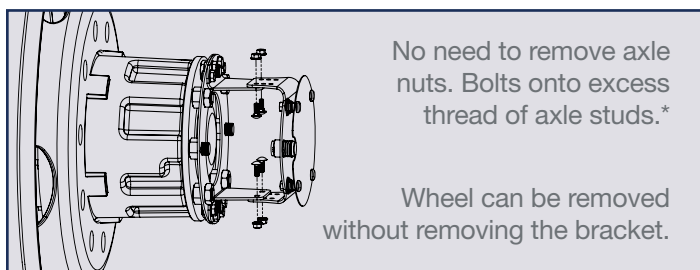

### **Aero Clear RW1050\***

No need to cover up your wheels to get aerodynamic fuel savings, with Aero Clear you see the entire wheel and all the components. Made of crystal clear high impact UV protected polycarbonate, it's like looking at your wheels under glass.

### **Aero Black RW1052\***

One of the best ROI's in the industry, this no-nonsense, high-impact ABS plastic Aero Cover provides vehicles with an aggressive and strong appearance and offers all the Aero benefits.

\*See price list for correct bracket model for your truck or trailer.

### **Anti-theft Locking With Key Available On All Covers**

#### **4-Pack Lock Set: RWTLOCK-4PK**

All covers come laser scored for installation of lock.

Cover shown with lock installed.

### **Front Aero Covers**

Covering the front wheel hub and lug nuts helps streamline the front wheels, reducing turbulence and increasing fuel efficiency.

# TWIST&LOCK™ AERO Plus PACKAGE

## Dual Wheel Truck Package:

- (4) Twist & Lock Black ABS Covers
- (10) LED Set&Go AirGuards
- (4) Air Valve Extensions

## Wide Base Wheel Truck Package:

- (4) Twist & Lock ABS Black Covers
- (6) LED Set&Go AirGuards

For even greater fuel savings, the AeroPlus Package combines our Aero Covers, Extensions and AirGuards at a reduced package price.

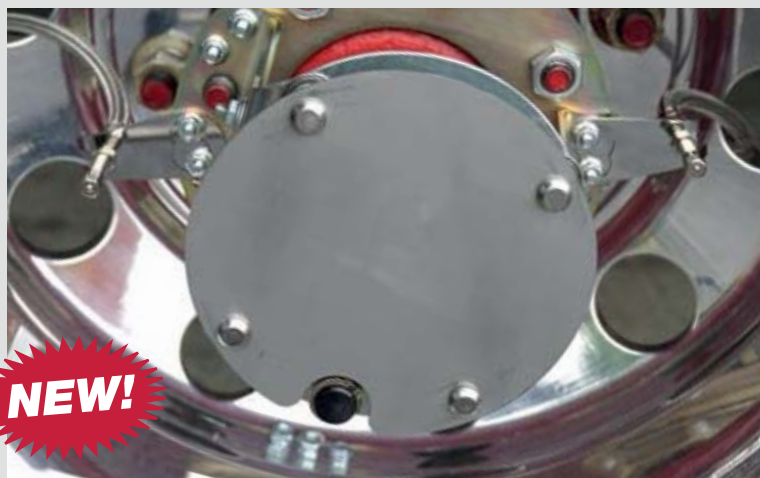

AeroPlus Twist & Lock Package Savings Examples		
Product	Truck Only	Truck & Trailer
Aero Covers	1%	2%
LED AirGuard*	1.5%	3%
<b>AeroPlus Fuel Savings</b>	<b>2.5%</b>	<b>5%</b>
Fuel Savings**	\$1,443	\$2,817
Maintenance Savings***	\$686	\$1,372
<b>Total Annual Savings</b>	<b>\$2,199</b>	<b>\$4,189</b>
Dual Wheel ROI	2 to 3 months	
Wide Base Wheel ROI	1 to 2 months	

\*Tire Inflation Pressure—Every 10 psi of underinflation represents approximately 1% penalty in fuel economy. Estimates of 1.5% and 3% shown are for illustrative purposes and show an improvement in fuel economy by maintaining proper tire pressure versus driving on underinflated tires.

\*\*Fuel Savings Example based on running 130,000 miles per year at 6.50mpg, consuming 20,000 gallons of fuel at \$3/gal. When using AeroPlus, the minimum average is 6.66mpg, the maximum average is 6.82mpg.

\*\*\*Maintenance Savings Example based on a labor rate of \$40 per hour and 10 to 20 minutes per pressure check. Maintenance dollars saved would be \$6.60 to \$13.20 per air pressure check. Pressure is checked twice a week. If more than two pressure checks per week are required, this amount would also increase.

Easy & quick installation. Braided stainless extensions mount securely to the EZ-Access Air Valve Tabs.

## EZ-Access Air Valve Extension Kit for Twist & Lock Aero Covers RW1258-6K

Since Twist & Lock Aero Covers are easy to install and remove, air valve extensions are not required. However, this optional kit allows for even easier and more convenient access to air valves when checking tire pressure.

### EZ-Access Kit Includes

- One 16" Straight Extension
- One 14" 180° Hooked Extension
- Two EZ-Access Air Valve Tabs

# LED AirGuard<sup>®</sup>

**SET & GO** Tire Pressure Monitoring System

**Complies with the NFPA 1901 & 1917 Standards**

For ambulances and fire trucks

## Low Tire Pressure Is Dangerous!

The Easiest TPMS to Install, Calibrate & Re-Calibrate

- Safety – Improper tire pressure has a detrimental effect on handling, braking and control.
- Longer Tire Life – According to the D.O.T., 95% of all premature tire wear is caused by underinflation.
- Self-calibrating – LED AirGuard Set & Go memorizes pressure when initially installed and can be easily recalibrated by simply removing and reinstalling.
- Improved Fuel Economy – Proper tire inflation can save an estimated 3% to 5% in fuel costs.
- The Set & Go can be used on any tire pressure between 10psi and 200psi.
- Battery standby time is warranted for 2 years from date stamped on the AirGuard. Batteries are non-replaceable.
- Ultra-bright LED allows for visual checks of each tire, even in daylight!
- Truckers & Fleets – Helps keep you CSA compliant.

LED AirGuard Set & Go starts flashing RED if the tire pressure drops 5 to 10 psi.

### Set & Go Anti-theft Locking System

The use of the Locking Nut to tighten against the Set & Go on the valve stem helps prevent theft.

### AirGuard Set & Go

Set & Go Model #	Amount
RW-PPK-0402	4-Pack
RW-PPK-0403	6-pack
RWTG1235	Single

Imported

No tools required for installation.

**1. Check Tire Pressure**

**2. Thread On**

**3. Monitors Pressure**

Starts flashing RED if tire pressure drops 5 to 10 psi.

LED AirGuard Set & Go is designed to fit Trucks, Fire Trucks Semis, Trailers, Buses, Motorhomes, Cars, ATVs, Motorcycles and more!

# For Commercial Trucks with 19.5", 22.5" & 24.5" Aluminum Wheels with Round Holes and 22.5" & 24.5" Standard Steel Wheels with Oval Holes

## Tire Pressure Monitoring Kit

Includes: LED AirGuard® Set & Go, Inner and Outer Air Valve Extensions, plus Air Valve Extension Stabilizers.

6 Wheel Kit	
Set & Go Model #	Kit Fits Round Holes
RWTG1236-62	2"
RWTG1236-65	2.5"
RWTG1236-68	2.8"
RWTG1236-63	Oval Holes

10 Wheel Kit	
Set & Go Model #	Kit Fits Round Holes
RWTG1236-12	2"
RWTG1236-15	2.5"
RWTG1236-18	2.8"
RWTG1236-13	Oval Holes

## POP Packaging & Displays Available!

Clamshell Package  
4 or 6 packs  
(5" x 8")

Counter Display Box  
(11" x 7.5" x 7")

Tire Pressure Monitoring Kit

6-Wheel  
(5" x 14.5")

8 and 10-Wheel  
(7" x 19.5")

Counter Easel Card  
(8.5" x 11")

## Valve Stem Stabilizers

Aluminum Wheels

Steel Wheels

These Valve Stem Stabilizers help prevent damage to extensions caused by the rubbing of the extension against the wheel. A worn extension may lead to air leakage and result in tire damage. Easy installation: simply align the rubber stabilizer with the valve extension and push into the wheel hole.

## Valve Stem Stabilizers

Model #	Stabilizer Type
RW0020VSB	2" Round for Aluminum Wheels
RW0025VSB	2.5" Round for Aluminum Wheels
RW0028VSB	2.8" Round for Aluminum Wheels
RW0030VSB	3" x 4.75" Oval for Steel Wheels

Imported

## Valve Stem Wear Is Dangerous

Centrifugal force of a rotating wheel (photo 1) will cause the valve stem to rub against the wheel and result in wear and eventual failure of the valve stem (photo 2).

### Why RealWheels Simulators?

1. Dollar for dollar, RWC Simulators are the best value in the market.
2. RWC is the only American wheel simulator manufacturer.
3. All our simulators are made from heavy-gauge 304L stainless steel.
4. The only simulators that look like aluminum wheels.
5. They all have patented, over-the-lug style mounting, which does not require the removal of lug nuts.
6. They have more universal features and require fewer part numbers to fit a variety of wheel sizes.
7. RealWheels guarantees the durability of each simulator and its mirror-shine.
8. All parts can be ordered individually.
9. 22.5" & 24.5" rear simulators come standard with our American-made, high-quality, stainless steel braided valve extensions for easy air pressure monitoring and access.

Classic Series (shown)

**RW1173-24CK** Fits 22.5" Fronts

**RWLH2003-CXK** Fits 22.5" Rears

22.5" to 24.5" Stainless Steel Simulators offer a front profile and deep rear inset that simulates the look of aluminum wheels.

### Front and Rear Simulators

- Fits 20/22.5 x 7.50/8.25/9.00 and 22/24.5 x 8.25 wheels.
- For standard hub piloted and stud piloted wheels.
- Rear simulators fit wide-base wheels.
- High-quality, non-magnetic 304L stainless steel — will not rust, pit, corrode or turn yellow.

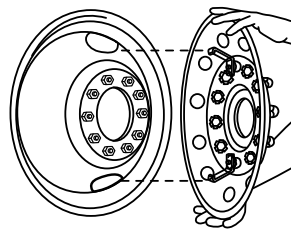

Pop-In Centers for easy oil cap viewing.

### Trailer Simulators

- Match your trailer wheels to your truck wheels with RealWheels simulators.

RealWheels has over 30 years' experience developing mounting systems for wheel simulators. Our innovative designs have been awarded numerous patents.

**Front Hook Mount**

**Wedge Lock Mount**

- Engineered to fit securely to steel disc or aluminum wheels with our patented over-the-lug mounting systems.
- The hook mount systems do not require excess stud.
- These systems do not disturb the torque of the lug nuts.

Whether you have an early model truck with cast spoke (Dayton) wheels or a brand new truck with steel disc wheels, these covers fit them all.

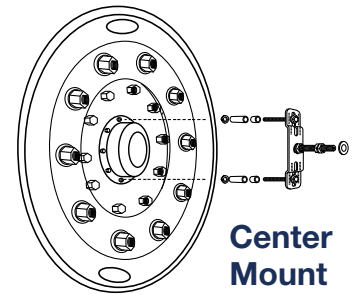

Cast Spoke  
Wheels

**RW1021BK-UC**  
Fits 20" & 22.5" Rears

**RW1148BK-34W**

With our Integrated Lug Nut Cover Design, you get the styling of lug nuts, yet cleaning is a snap since you don't have the full lug nut cover to wash around.

**RW1130** 22.5" x 12.25"

**RW1134** 22.5" x 13"

### Integrated Lug Nut Covers

Offers the styling of lug nuts, without the hassle of cleaning around lug nuts.

**RW1133** 22.5" x 13"

**RW1160-BK** 20"/22.5" x 12.25"/13"

20" and 22.5" Super Single Simulators for heavy duty front axles offer the only flush profile in the industry. This flush profile is crucial to maintain mandatory width offsets.

### Super Single Features

- High-quality, non-magnetic 304L stainless steel—will not rust, pit, corrode or turn yellow.
- For super single front hub piloted and stud piloted wheels.
- Fits 20/22.5 x 12.25 and 13.00 wheels.
- Simplified over-the-lug, patented mounting system.
- For heavy rated front axles.
- Easy D.O.T. Inspection.

BEFORE

AFTER

Our simulators install easily on most super single wheels.

### Custom Sizes Available

RealWheels Super Single Covers can be designed to fit any super single wheel, even airport ARFF units.

Pop-In Centers for easy oil cap viewing.

EZ Style  
Simulators  
(shown)

**RW1960-JEZK**

RealWheels offers simulators designed for your imported vehicles. It's the easiest way to get the look of aluminum wheels. Easy installation!

16"–17.5" EZ Style Simulators (shown)

### **EZ Style Features**

- New EZ Design Available  
We've designed our EZ line of wheel simulators so they are EZ to install, EZ to clean and EZ to maintain. Plus they are offered at a lower price, which makes them EZ to purchase.
- High-quality, non-magnetic 304L stainless steel—will not rust, pit, corrode or turn yellow.
- Patented Over-the-Lug, Hook-Mount systems.

**17.5": RW1760JEZK / 16": RW1660-JEZK**

A Perfect  
Fit For Your  
Imported Truck

Available For

Hino  
Mitsubishi Fuso  
Isuzu  
Nissan  
UD

All simulator styles  
available for 16", 17.5"  
and 19.5" Wheels

RealWheels Stainless Steel Simulators offer a front profile and deep rear inset that simulates the look of aluminum wheels.

16"–17.5" American Road Simulators (shown)

#### American Road Features

- High-quality, non-magnetic 304L stainless steel—will not rust, pit, corrode or turn yellow.
- The hook mount systems do not require excess stud.
- These systems do not disturb the torque of the lug nuts.

**Features**

- Low profile design.
- Fits 10 lug wheels.
- For steel or aluminum wheels.
- Will not crack like plastic when removing.
- Made from high-quality, non-magnetic 304L stainless steel—will not rust, pit, corrode or turn yellow.
- Integrated Lug Nut Cover design.

Easy and secure installation  
with our over-the-lug  
mounting brackets.

# Lug Nut Cover Solutions

The only lug nut cover that provides safety, good looks, and a universal fit.

## Introducing the first 32/33mm Universal Lug Nut Cover with optional Loose Lug Nut Indicator.

- Universal Design—Fits both 32mm and 33mm lug nuts.
- Lug nut cover is designed to accommodate our optional LugCheck Loose Lug Nut Cover Indicators—Allows for quick and easy visual inspection.
- High-quality, chrome plated ABS.

Vibration and bolt fatigue are the leading causes of self-loosening wheel lug nuts and joint failure. Visual inspections by trained mechanics can detect a loosened wheel lug nut, however to an untrained eye, a loose wheel lug nut looks tight. Additionally, many truck, trailer, bus and RV owners dress up their wheels with lug nut covers, so using a Loose Lug Nut Indicator that only fits the bare lug nut is not an option. That's why RealWheels has developed the LugCheck Loose Lug Nut Indicator. It's the only cover that combines the safety of a visual Loose Lug Nut Indicator with the beauty of a chrome plated lug nut cover.

Personalized domed logos or reflective inserts for added safety are available.

Optional Reflectors Dramatically Increase Visibility.

Attractively Packaged. Includes 10 Lug Nut Covers and 10 Loose Lug Nut Indicators.

Lug Nut Cover:

Sutphen Stainless Steel Grille & Light Housings

The I.D.E.A. division (Innovative Design & Engineering Applications) is the branch of RealWheels Corporation that assists your organization with various levels of design, engineering, and fabrication. This exciting division has effectively helped customers with tasks as simple as basic parts manufacturing, or as detailed as complete new product concepts and development.

We are passionate problem solvers, consistently dedicated to finding the best design and manufacturing solutions for our clients.

Our fabricating abilities allow flexibility to meet your technology and delivery requirements while staying within your budget constraints.

Meets NFPA Standards  
Custom stainless steel diamond pattern steps with non-slip extrusions.

Light Housing Wing Pocket Thermoformed and Chrome-Plated.

Custom honeycomb grille for van conversion company

Chrome plated billet door handles for major OEM.

We have effectively helped customers with tasks as simple as basic parts manufacturing, or as detailed as complete new product concepts and development.

### Interior Hand Railings

A leading Specialty Vehicle manufacturer needed a better design for interior hand railings. The challenge was to produce a better quality product, while lowering their costs. The project team exceeded expectations, and now the parts are used on hundreds of vehicles. Additional vehicle parts using bent tubular stainless steel have since been developed for many of their high-profile projects.

### Luxury Motorcoach Stainless Trim

A luxury motorcoach builder asked RealWheels to quote on a variety of component parts used in their high-end vehicles. The IDEA team was able to provide cabinetry brackets, air vent louvers, stainless enhancement trim and other supplies at a fraction of the cost they were paying to another supplier. RealWheels continues to work with them on additional parts and innovations.

### Custom Brush-Finished Stainless Steel ARFF Cover

A leading heavy equipment manufacturer was preparing to unveil a new Airport Rescue Vehicle. They enlisted the help of the RealWheels IDEA team to design and engineer a protective stainless wheel cover. No cover had ever been developed for such a large wheel size, and a completely new mounting system had to be engineered. The team created a very industrial design with a machined-finish. The protective cover performs extremely well, greatly enhances the vehicle's appearance, and has become a popular option on new orders.

## “Liberty” Vehicle Flag Pole System

The heaviest-duty 304 stainless steel system on the market! It’s made from heavy gauge 304 stainless construction with CNC precision machined billet aluminum components, including top ball.
