RedLine LumTronix round headlights will fit all vehicles (Car, Truck, Motorcycle and Motorhomes) made from 1936 to 1979 no matter what country the vehicle was made or the company that made it. Fits many vehicles made after 1979 that uses a universal round headlight or a universal size headlight such as Jeep Wrangler up to 2017.

If you're looking for a way to stand out from the crowd at your local Saturday night Cruise-In or car show, these head turning LED Halo Headlights are the perfect addition to your vehicle!

Safety First! These headlights not only look great, but provide greater visibility, typically 50% brighter than stock. In addition to a brighter light, the position of the halo provides more peripheral vision sidelight. Installing the LED ring to act like a Daylight Running Light, allows other motorists to see you before they pull out in front of you. In addition to looking cool, RedLine LumTronix built-in safety features will make you feel safer driving down the road, during the daytime or nighttime.

These single color halo headlights give your car a more elegant look like the Audi, BMW, Maserati, Chevy Corvette, Dodge Challenger and Ford Mustang. Style and sophistication will be seen by everyone admiring your ride. All the modern cars have LED Daylight Running Lights (DRL) why not for your classic.

Extremely easy to install as the halo only has a red power wire for positive and a black ground wire for negative. Allows many connection options, depending when you want them on. Connect to your parking lights so when you pull once on your headlight switch only the parking lights with the halo comes on or connect to your ignition and the halos always come on when your car is running or a separate switch to leave on at shows.

RedLine LumTronix has designed a headlight that has the appearance of being blacked out when the center beam is deactivated. These black illusion headlights give you both worlds; 100% light output with no degradation that makes the headlight look dark and the safety of a non-degraded headlight.

Celebrities who use RedLine LumTronix lights: Stacey David host of "Gearz," Kevin Tetz writer for "Car Craft" magazine, Jeff Lutz winner of 2014 and 2016 Hot Rod Drag Week, 2015 Hot Rod Drag Weekend and celebrity on "Street Outlaws." Justin Sheer (Chief) host of "Street Outlaws," Chuck on the show "Fat and the Furious."
