

## FRONT FLEET SERIES BRUSHGUARD

Road Armor's new brush guards are designed to offer the kind of muscular look and superior fit that our full replacement bumpers are renowned for.

## FRONT STEALTH WINCH BUMPER WITH AGGRO GUARD

Taking its design cues from the Lonestar guard, the Aggro model is unique to our Toyota lineup. The cross bar offers great protection, while the light hoops precisely match the angular light pods.

## FRONT STEALTH WINCH BUMPER WITH BULL BAR GUARD

Designed to give the FJ a more muscular look up front, the Bull Bar model offers great off-road protection, better ground clearance, and great winching capabilities.

**BUILT TO LAST.  
BUILT TO PERFORM.**

## FRONT STEALTH WINCH BUMPER

The original Road Armor design: multifaceted, perfectly formed, a classic.

## FRONT STEALTH WINCH BUMPER WITH PRE-RUNNER GUARD

A favorite amongst off-road enthusiasts, the pre-runner model provides basic grille protection with a sleek, low-pro look.

## FRONT STEALTH WINCH BUMPER WITH LONESTAR GUARD

Designed for those who need solid protection on the job, around town, and on the trail, the Lonestar delivers a perfect blend of mass and muscle.

## FRONT STEALTH WINCH BUMPER WITH TITAN II GUARD

For the most serious protection available, the T2 is truly unique; nothing else in the marketplace even comes close. Police, military, hunters, and adventurers all agree this model is in a class by itself.

## COMMERCIAL DESIGNS

Road Armor has a long history of designing bumpers adapted specifically to military and industrial uses. Whether equipping government fleets, army rigs, or special-use vehicles, our goal is always the highest customer satisfaction.

## REAR STEALTH WINCH BUMPER

Capable of housing a winch up to 9K, this unit remains the only rear winch bumper available in America today. From off-road extraction to trailer utility to workplace mule, the rear Stealth bumper stands apart.
