

## Installation Instructions

### Electric Trailer Brake Control Wiring Adapter

#### ⚠ CAUTION

For use with Tekonsha brake controllers. For more information and to find a suitable brake controller, see website for complete listing.

#### ⚠ CAUTION

Plug brake control adapter into mating receptacle on backside of brake control before attaching to the vehicle connector.

1. Locate the vehicle's electric brake control harness connector. The harness will be located underneath the dash and left of the steering column **A**. There will be a 6-pin connector that mates with the one on the adapter **B**.

#### NOTE

Depending on the make, model, and manufacturer or your motorhome, the brake control housings may be bundled with other wires, hidden further under the dash, or in another location. If connector still cannot be found, contact the manufacturer of your motorhome for more information.

2. Plug the brake control adapter into the vehicle's electric brake control harness connector. Follow all brake control manufacturer's installation instructions.

#### ⚠ WARNING

Complete the installation per the electric brake control manufacturer's instructions and mount the unit as directed. Perform test procedures as instructed.

#### ⚠ WARNING

Overloading circuits can cause fires. DO NOT exceed stated product ratings. Read vehicle's owner's manual & instruction sheet for additional information.

#### ⚠ WARNING

**ALWAYS** read and follow all warnings and instructions included with purchase before beginning installation. Keep for future reference.

**DO NOT** exceed lower of towing manufacturing rating (including in your vehicle owner's manual) or specific amperage ratings stated on product.

**ALWAYS** read, understand and follow all warnings and instructions printed on tow vehicle's battery.

**ALWAYS** wear safety glasses and use all safety precautions during installation.
