

# Heavy Duty U-Joint Puller

10102

**TIGER  
TOOL**

Have What It Takes

## Safety Warning

**Read all instructions and safety warnings prior to operation. Failure to do so could result in equipment damage, personal injury or even death.**

**CAUTION:** FAILURE TO CHECK THE SPHERICAL THRUST WASHER AND REPLACE AS NECESSARY MAY RESULT IN UNREPAIRABLE DAMAGE TO YOUR U-JOINT PULLER GLOVE CASTING. PREVENTATIVE MAINTENANCE AS OUTLINED BELOW WILL ENSURE MANY YEARS OF USE FROM YOUR TIGER TOOL PULLER. FAILURE TO PERFORM PREVENTATIVE MAINTENANCE WILL VOID YOUR WARRANTY.

- **Stay Alert!** Watch what you are doing and use common sense when operating this tool.
- Inspect product for damage prior to using; do not use if product is in unsafe condition.
- Do not operate tool while under the influence of drugs, alcohol or medication.
- Always use safety equipment to prevent injuries. Approved face and eye protection must always be worn by the operator, as well as others in the work area.
- Do not overreach. Keep proper footing and balance at all times.
- Dress properly. Do not wear loose clothing or jewelry. Keep your hair, clothing and gloves away from moving parts.
- Keep your work area clean and well lit.

**NOTE:** HAMMERING THIS TOOL WILL VOID YOUR WARRANTY.

## Operating Instructions

- 1 Remove all fasteners from bearing cups.
- 2 Slip the U-Joint Puller over the yoke of the drive line.
- 3 Turn the tool's forcing screw clockwise with up to a 1" impact wrench.

**Note:** Reverse threads, bottoming out forcing screw on frame may cause unwarrantable damage to threads.

### Preventative Maintenance

Keep forcing screw clean and lubricated at all times. Failure to maintain the spherical thrust washer located inside the glove (Item 2) will result in excessive wear to the glove. Check and lubricate this part (lubricate load bearing surface in glove, under cap, on both sides of spherical washer) periodically and replace as necessary. Contact your Dealer or Tiger Tool for replacement washers. (We recommend SAE 30 lube for the threads and EP 'with molly grease').

The leg design allows you to push on the driveline or on the U-Joint cross. (Works either way on virtually all class 7, 4, 8 U-Joints)
