TYC #: 800013P

Estimated Time : 5 min.

Replacement for OEM
9204626-7 (OLD)
30630752-1 (NEW)

01-09 Volvo 60 Series
01-07 Volvo 70 Series
99-06 Volvo 80 Series

03-08 Volvo XC 90

1. The filter is located beneath the glove compartment. Remove the 2 screws that secure the black cover panel, remove panel and set aside.

3. Remove the old filter by sliding it downwards. Replace with new TYC filter, ensuring that Air Flow arrow is pointing to the vehicle's cabin.

4. Reinstall in reverse order.

2. After removing the panel, the filter access door will be visible. Remove the 4 screws that secure the filter access door, remove door and set it aside.

Installation guide pictures are from the **BOLD** vehicle model.
