“LiftGo” for Toyota/ Lexus

Hands Free Lift Gate/Trunk Opener

Factory Remote Compatible, Motion Activation

It's a simple way to add a hands-free lift gate/trunk opener to almost any vehicle that features push start ignition. This innovative, OEM-quality design installs discretely behind the rear license plate for effortless activation using a hand, a hip, an elbow or whatever body part most convenient at the time. It can also often be activated by many everyday items you might be carrying such as a bag of groceries. No special remotes are required— the system uses the vehicle's factory security system to verify the factory key fob after detecting a movement at the front of the license plate. It's so easy to use, you just might find yourself looking for reasons to have your hands full.

Applications

Toyota

AVALON	2015-16
HIGHLANDER	2014-16
RAV4	2016
SIENNA	2011-16
VENZA	2009-15

Lexus

GS250/450h	2013-16
ES350/300h	2013-16
NX/NXh	2015-16
RX350/450h	2010-15

* See application guide for details

Patent Pending

Vehicle must have push button start and power tailgate.
